Contestants Are Running In Bunch Now But End Of First Period May Find Some Leading Field With Big Majority—Many Accounts Being Paid—Thousands Of Votes Cast

The greatest vote offer of the entire Vernon Record election is NOW IN FORCE and the coming 7 days will no doubt prove the most important of the whole campaign to candidates. This is without question the opportune time for candidates, both present and prospective, to get a lead in the race. The wise ones will lose no time in getting busy at once to gather in a harvest of extra votes during the present vote schedule.

Those who have been thinking of entering the big gift distribution campaign and those whose names now appear in the list, but as yet have not started an active campaign will find no better time to do so than right now. With the present big vote schedule in effect, giving a new candidate a chance to pile up votes on the double quick, no one should delay entering the big campaign with determination and earnestness to win this very week.

The Vernon Record's big election of fers people of this community an opportunity to choose from the greatest, and most costly list of gifts ever offered in this part of the state. The beautiful 1923 cars of the latest model; hundreds of dollars in gold and silver awards stand awaiting you. And yet these valuable prizes are simply going begging for lack of active workers to compete for them. While the Vernon Record has been receiving hundreds of clipped coupons from the paper for the various candidates and a great many subscribers have paid up their old accounts and renewed their subscriptions, giving their votes to their favorites, only a few candidates have really commenced their campaign in earnest. And this is the time to do that very thing—this is the time to get your subscriptions in while they count so many votes. Those who have the foresight to see the tremendous value in votes of subscriptions as compared with the coupons and get their campaigns started while the present big vote schedule is in effect will be well paid for their efforts.

This is the week to enter and pile up votes on the big vote schedule. Start out now in earnest and you will be surprised at what you can accomplish with the assistance of the biggest vote offer of the entire race.

Campaign Notes

Just as in a horse race, the runners have started out closely bunched as they leave the barrier, but from now on it can be expected that those making the greatest efforts are bound to pull out in front of the slower ones. The next seven days may be the deciding period of the whole campaign.

Some of the candidates in the lists are beginning to concentrate their efforts in "electioneering" on the securing of subscriptions and renewals, if some of the gains that appear in the count today are a criterion.

All of the candidates should quickly come to a realization that now is the most important time of the whole campaign. Subscriptions pile up votes mighty fast.

The Vernon Record campaign is a short one—it's "all out and over" next month. All prizes, cash and automobiles, will be distributed in December and this is November.

Those persons who have been contemplating entering the mammoth prize distribution should not delay sending in their nomination blanks, and getting busy at once. Time is flying and the entire campaign will be over before it is realized.

Here's a prediction that is going to come true when this election is over—just as certain as fate. When the final count is made and the prizes distributed, there's going to be a lot of persons figure up just how easily some of these valuable awards are won and see that they could have done just as well or better than those who will

EDMONSON ASSUMES
DUTIES OF OFFICENEW SHERIFF HAS HAD CAREER
OF THRILLS AND NAR-
ROW ESCAPES

The resignation of Sheriff W. A. Ish, offered a few days ago, took effect this morning and Frank Edmonson nominated in the first primary and elected to office Tuesday, was sworn in and assumed his new duties.

Mr. Edmonson stated today that he is not ready to announce the appointment of deputies. Four or five men residing in Vernon and in other towns of the county, will be named about the first of next month. Mr. Edmonson stated, and Jim Carrington, deputy under Mr. Ish, will continue in his duties as jailer until then.

In taking over the office the new sheriff stated that he is anxious for the citizens of the county and the business men of Vernon to cooperate with him in the enforcement of the law, and that this cooperation is necessary if criminals are to be brought to justice and violations of the law kept down.

Mr. Edmonson brings to his new work the acumen gained in years of work as a peace officer. His life has been one of adventure, thrills and narrow escapes from death, and he has several times received national publicity through some daring exploit.

Lure of the Ranches

He was born on a farm in Bowie county, Tex., where he remained until the lure of the ranch country further west claimed him, and he went to work as a cowboy. When he was 20 years old he accepted a position on the Oklahoma City police department. He worked for the police and sheriff's departments in Oklahoma City for seven years, when he went to Los Angeles and accepted a position with the Nick Harris detective agency, one of the largest on the West Coast. Later he went to work for the Los Angeles detective force.

Mr. Edmonson was one of a trio of men who volunteered to test a new aeronaautical device in April, 1916. A balloon owned by the municipality of Los Angeles and used by the police department in work along the water front, was selected to carry the men on their trial flight. The instrument to be tested was a new type of statoscope, which its inventor claimed was so delicate that it would register the rise or fall of an airplane or balloon if it moved as much as a foot.

The flight was started on April 18, at eight a. m. The balloon ascended to an altitude of 12,000 feet, where it was buffeted back and forth by shifting air currents, and finally carried eastward, over the high ranges of the Sierra Nevada mountains. Hours of travel followed, during which the occupants made desperate efforts to work the throttle which released the gas, but it had become hung and refused to work. Finally Jack O'Connell, the pilot, climbed the ropes which anchored the basket to the huge bag, and released the valve. A gust of wind struck the balloon and he slipped and fell, but by some freak of fate he fell back in the basket.

Land in a Canyon

Mr. Edmonson and his companions landed in the Telegraph canyon, miles from the nearest ranch house, Tuesday night. They walked back to civilization the next day. A number of search parties were out looking for them.

Mr. Edmonson came to Vernon shortly after receiving his discharge from the army, where he enlisted during the world war. He worked for a number of months on the city police force, and made many raids and arrests. He went to Stephens county, when Sheriff L. D. Head took office there, and assumed the position of chief deputy.

Mr. Edmonson's work at Breckenridge won attention throughout North Texas. When he began his duties the oil fields were infested with crim-

PANHANDLE COUNTRY
BOOSTED BY BANKERC. HERRING SAYS WONDERFUL
DEVELOPMENT GOING FOR-
WARD IN WEST

Rev. Lewis P. Kopp made a brief address to the Rotary club at the weekly meeting and luncheon Tuesday, stressing the importance of the "Go to Church" campaign.

"The Rotary club, standing for the highest ideals of the community, state and nation, can have a wonderful influence in aiding the 'Go to Church' movement," he declared. The campaign to get Vernon out to church Sunday should mark a turning point in the religious life of this city."

C. T. Herring, of Amarillo, president of the Herring National bank and a member of the Rotary club of Amarillo, gave an interesting account of the work being performed by Rotarians in his city. He stressed the accomplishments of the club in its students' loan fund work and described the wonderful development now going forward in the Panhandle country.

Mr. Herring arrived here a few days ago for a business visit.

R. H. Coffey gave a report on activities of the Lee Highway association. The action of the interstate conference of engineers and road officials at Fort Worth in finally designating Wilbarger county as part of the route for two great highways was declared by Mr. Coffey to be of great importance to the county.

E. C. Christian, J. L. Swartwood and Owen Brunson were chosen as a committee to meet with a committee from the Red Cross next Monday when a decision regarding a roll call and membership drive will be reached.

POULTRY MEN LEAVE
FOR MUNDAY SHOW

Adam Donges and L. P. Kramer, poultry experts of Vernon, left this morning for Munday, Tex., where they have entries in the poultry show which opened Wednesday to last until Saturday night. Mr. Donges is exhibiting a young pen and a cock and a cockerel. His breed is the buff Orpington, and he has never failed to take blue ribbon on his entries wherever they have been shown. Mr. Kramer is showing a pen of his barred rocks. He has won many ribbons on this breed.

Mr. Donges sold a trio of fowls to a Munday breeder this week for \$25.

Many entries have been made to the Munday show, and breeders from all over West Texas are taking part. Poultry shows in West Texas this year have been meeting greater success than ever before in their history, according to journals of the industry.

Farm Bureau Man Will Speak

G. R. Thompson, special representative of the Texas Farm Bureau, accompanied by a representative of the Growers' National exchange, will be in Vernon Tuesday afternoon, to speak at the library building to members of the farm bureau in this county. The public is invited to attend the meet-

150 FOWLS ENTERED
IN ANNUAL POULTRY
EXHIBITION ALREADY

Show Will Be Most Successful in History of Association, Officials Declare; New Premiums

With the annual show of the Wilbarger Poultry Association more than two months off, more than 150 fowls already have been entered for competition. H. D. Hockersmith, secretary of the association, stated today. The Shive building between Hawkins & Williams and McCulley's grocery store, has been secured as an exhibit hall.

"While this is not as large a building as the one we had last year, it is admirably adapted to the purpose, being light and well ventilated," Mr. Hockersmith declared.

Entries and inquiries from many of the best known poultry breeders of the Southwest have been received, and Mr. Hockersmith and Adam Donges, president of the association, declare that the outlook is bright for the most successful show in the history of the association.

In addition to the regular cash premiums, the show is offering several special premiums, including a \$50 cash prize for the best display, open to all breeds. No entrance fee is charged for this premium, the only requirement being that the birds must have been previously entered in the show. The display will consist of 15 birds, or three pens, all of one breed.

This is believed to be the first time such a prize has been offered at any poultry show in the southwest.

Another feature which is attracting unusual interest is the settings of eggs offered as prizes. Among these will be eggs from some of the finest flocks in the United States.

Merchants and business men generally are backing the show this year in a way never experienced before, according to officials of the poultry association. Mr. Hockersmith, who has been soliciting advertisements for the premium list, said today that he is meeting with all the encouragement he could ask. The catalog of the show is expected to be completed in a few days.

Will Sell Last Bushel of Pears

The last bushel of pears from the J. A. Lutz orchard of 30 acres will be offered the public next Saturday by the Parent-Teachers' association of the high school. Proceeds from the sale will go to aid the work being carried on by the organization.

Negro Seeks Whiskey
In Store-room; Sees
White Robed Figures

A comedy in three acts was staged at a Vernon hotel this week, when a negro porter was advised by guests he could find some whiskey in the store-room, which was very dark. The "white lightning" was hidden in a barrel, the guests said.

The darky made a search for the precious fluid, after eyeing the black interior of the store room for a while. Two figures came up from the rear, clad in the regalia of the Ku Klux Klan.

The negro paused in his search for the precious fluid, some canny instinct warning him of the noiseless approach of the white clad figures. He straightened up and remarked in pleading tones: "Feet, don't go back on me now, when I've in a tight lark dis?" Then he made a wild dash for the out-of-doors.

The hotel was minus a porter for several days, before the negro again showed up for work.

A. & M. EXPERTS TO
ARRIVE NEXT WEEKFIRST FARM SURVEY IN PANHAN-
DLE WILL BE MADE IN
THIS COUNTY

Two A. & M. experts will arrive here next week to conduct the first farm management survey ever made in Northwest Texas. The men are R. K. Whelpton, of the department of farm management of A. & M. and W. F. Daugherty, of the extension department. They are expected to arrive at Vernon Sunday night and go to Oklahoma or Harrold Monday to begin their work.

An intensive survey will be made at Oklahoma and Harrold, and data on farming over the county, with special reference to wheat raising, will also be gathered.

The two experts will be assisted in their special survey by V. R. Glazener, principal of the Oklahoma school, and R. S. Covey, principal of the Harrold school. Both are A. & M. graduates. In gathering general data on the farm resources of the county, they will have the assistance of P. D. Chaney, agricultural agent of Wilbarger county, and also a graduate of A. & M.

The A. & M. men will make a summary of the data gathered here, and will probably return in the spring to conduct a short school along lines indicated by the survey to be needed. The data also will be used by students at A. & M.

Bourland Adopts Catchy Slogan

"Turn the crank on the phonograph for the Bourland school," is the slogan adopted by students at the school for a tag day sale. Needless to say, the sale is to provide money to purchase a phonograph.

WORK ON NEW BRICK
STRUCTURE STARTED

Work has been started on a one story brick store building, located just west of the Farmers State Bank on Wilbarger street by W. B. Evans, who owns the lot. R. L. Jones has a contract for construction of the building, which will be 54 by 100 feet in dimensions. It will be of fireproof type.

On completion, the building will be occupied by the Hawkins & Williams Furniture company, which at present is located on North Main street. It is being specially arranged to serve the needs of the furniture company.

OUR VETERANS

The most American thing in America is an American war veteran with a wound in his body. Why not cultivate the acquaintance of a war veteran?

He is a true American aristocrat. He was a hero when he responded to the call and before this generation has passed away he will be the recognized hero on every state occasion.

For us he crossed the sea. For us he tramped over strange battlefields. For us he stood knee deep in the mire of wet trenches. For us he went over the top. For us he faced bomb, bullet and battlefame. For us he stood between the enemy and our flag.

Salute him. Invite him to your home. Dine him in your club. Be good to a veteran.

MISS PYLE TELLS
OF MUSIC CONTESTSPEAKS AT ALL SCHOOLS OF CITY
VERNON CLASSES READY
TO START

Miss Henryetta Pyle, of Wichita Falls, spoke to teachers, members of the Parent-Teachers' association and the Musicians' club and school patrons and pupils, at the high school building Wednesday afternoon, explaining the music memory contest and its value to school students. Miss Pyle is responsible, more than any other person, for the fact that the contest is now a part of the interscholastic League work, and therefore a part of the regular school work in most places.

Miss Pyle spent Thursday visiting the Ward schools and explaining the contest to the pupils. She spoke at the Shive and Central schools in the morning and at the Parker school in the afternoon.

All of the Vernon schools are now equipped to hold the contest, the Parent-Teachers' Associations having purchased phonographs and most of the needed records for each school. The fifth, sixth and seventh grades are the only one eligible to enter the league competition. Training of pupils in these grades will be started in a short time.

The aim of the course is to familiarize the students with work of great masters in music, and to teach them to recognize each composition. History of classic music and its composers also is taught.

HIGH SCHOOL HOLDS
ARMISTICE PROGRAMMAYOR, LEGION REPRESENTATIVE
AND STUDENT DE-
LIVER ADDRESSES

Patriotic exercises, including a flag raising, were held at the high school building this morning, in commemoration of Armistice day. The students sang the Star Spangled Banner and America, and the high school orchestra played two patriotic selections.

Eva Katherine Rayzor, high school student, gave "Home Again, Home Again" as a reading. Marvin C. Culbertson made an address on behalf of the American Legion.

The students and teachers then marched from the auditorium to the school grounds, where an American flag was raised, with Mr. Culbertson officiating. Mayor Harry Mason spoke briefly giving the famous "Tribute to the Flag."

Exercises in honor of Armistice day will be held in each room at the ward buildings this afternoon. City School Superintendent E. L. Dohoney stated this morning.

Burglars Enter Haynes Residence

(Special to The Record)
Odell, Tex., Nov. 9.—The residence of B. S. Haynes, three miles east of Odell, was entered by burglars last Saturday afternoon, during the family's absence, and \$20 in currency and several articles of clothing taken. Included in the loot secured by the thieves were a sweater, a pair of shoes, a safety razor, and several trinkets. No arrests have been made.

FEDERATION OF WOMEN'S CLUBS
WILL HOLD ALL DAY MEETING

The Wilbarger County Federation of Women's clubs will hold an all day meeting at the Methodist church Wednesday, November 15, beginning at 10 a. m. All women's clubs in the county are requested to be present with their report, whether they have been admitted to the federation or no.

Some of the district officers from Houston are expected to attend the

With official returns received from all but two boxes in the county and unofficial returns received from these boxes, the vote in the senatorial race will probably stand at 1,106 for Mayfield and 274 for Paddy. In the district clerk's race, Mrs. J. A. Walker has 800 votes, C. A. Richie, deceased 100, Frank Murchison 232, H. W. Norwood 148 and "Mrs. J. A. Baker," i. e. it is probable that the lone voter intended to cast his ballot for Mrs. Walker.

These figures on the county clerk's race do not include the Oklahoma and Odell precincts, which have not sent in their ballots.

In East Vernon the vote for senator was as follows: Mayfield, 273, Paddy 73, Ferguson 3. In West Vernon: Mayfield 409, Paddy 95, Ferguson, 3, Culbertson 1. For district clerk, the vote in East Vernon was: Ferguson, 5, Murchison 61, Norwood 36, Richie 25, Mrs. Walker 199. In West Vernon it was: Murchison 135, Norwood 60, Mrs. Walker 202, Richie 34.

The election was one of the quietest ever held here, although the total vote polled was probably the heaviest ever was little enthusiasm at the B. & W. Drug Store, where only a small crowd gathered to receive election returns. More interest was displayed in the returns on the national election than on the state contest.

Several boxes in Wilbarger county did not give Paddy a single vote. The vote by boxes will be published in next Tuesday's issue of the Record, when it is expected that the two missing precincts will be in.

TWO COUPLES ARE MARRIED
BY JUSTICE OF THE PEACE

Louise H. Perkins and Miss Theima C. Melton were united in marriage at noon Tuesday, the ceremony being performed by Justice of the Peace T. J. Griffiths, at the court house. Mr. Perkins is the son of A. S. Perkins, while the bride is the daughter of Mr. and Mrs. J. A. Melton, all of Vernon. The young couple will make their home here.

L. A. F. Scott and Mrs. Mollie Carpenter were married by Justice of the Peace Griffiths at 2 p. m. Tuesday. Mr. Scott is a resident of Childress, while his wife who is a sister of Clayton Lawlis of the Parker Donges Grocery Co. has been residing in Vernon. Mr. and Mrs. Scott will make their home in Childress.

FORMER VERNON PASTOR WILL
BROADCAST PATRIOTIC ADDRESS

In a message to the Vernon Record, Rev. Gus Ramage, formerly pastor of the Central Christian church of this city, asks that his friends listen in next Sunday at 7:30 p. m. Mountain time, when he will broadcast a patriotic address from Trinidad, Colo.

"The theme will be especially for one of the coal mining camps, about 12 miles from here," Rev. Ramage stated. "Listen in and write to me if you hear the message. We will also have special music."

A. F. AND A. M. WILL HOLD
BANQUET NIGHT OF NOV. 17

At a regular meeting of Vernon lodge No. 655, A. F. and A. M., Thursday night, it was decided to hold a banquet on Nov. 17 at 7 p. m. After the banquet work on one of the degrees will take place.

E. M. Haney, W. G. Mosely and O. O. McCurdy are the members of the committee in charge of arrangements. Mr. Haney today stated that it is imperative for all members who wish to attend the banquet to see the committee before Thursday night Nov. 16, to make arrangements for their plates.

Mrs. W. B. McCaleb's class of the Presbyterian Sunday school will hold a Saturday market November 17 at the City Market.

GO TO CHURCH DAY WIDELY ADVERTISED

COMMITTEE DISTRIBUTES LITERATURE AT NEARLY ALL HOMES IN VERNON

About 60 workers met at the First Baptist church at 4 p. m. Tuesday and received "door knob hangers" and circulars advertising "Go to Church" day, which is next Sunday. They distributed the literature in 43 districts, covering nearly all the residence portions of Vernon, and were through with their task in less than an hour. J. A. Harrington, of the Kell Mill, acted as chairman of the committee. Each district had been mapped out and typewritten copies showing the areas to be worked, were distributed to the workers.

In addition to putting invitations to attend church in all the homes, placards have been placed in practically all business houses of Vernon, and on hundreds of automobiles. Advertisements are appearing in the picture shows and signs were today painted across the streets, inviting the public to come to Sunday school and church Sunday. It is hoped that all attendance records for this city will be broken.

In connection with the Go to Church movement, a Vernon pastor has called attention to a statement written by John G. Patton, the great missionary to the New Hebrides, in which he tells of the devotion of his father to the house of worship. The statement says:

"The town of Dumfries, Scotland, where we attended church, was four miles from our home, but during all these forty years my father was only three prevented from attending the worship of God—once by snow so deep that he was baffled and had to return, once by ice on the road so dangerous that he was forced to crawl back up the Duncan Brae on his hands and knees, after having descended it so far with many falls; and once by the terrible outbreak of cholera at Dumfries, for all intercourse between the town and surrounding villages was publicly prohibited, and the farmers and villagers, suspecting a deputation to my mother on the Saturday evening urged her to restrain his devotions for once."

AT CHURCH NEXT SUNDAY

If I knew you and you knew me,
How little trouble there would be,
We pass each other on the street,
But just come out and let us meet,
At church next Sunday.

Each one intends to do what's fair,
And treat his neighbor on the square,
But he may not quite understand,
Why you don't take him by the hand
At church next Sunday.

This world is sure a busy place,
And we must hustle in the race,
For social hours some are not free
The six week days, but all should be
At church next Sunday.

We have an interest in our town,
The dear old place must not go down;
We want to push good things along,
And we can help some if we're strong
At church next Sunday.

Don't knock and kick and slam and slap
At everybody on the map,
But push and pull and boost and boom,
And use up all the standing room
At church next Sunday.

Achievement

From the day of America's entry into the World War until the day when the President was informed that the last soldier had been demobilized. It was then that the world realized what a tremendous and successful undertaking had been carried out. The results made possible (Armistice Day)

The Buick Company's objective is today on the floor of our show room. Every obstacle in the path of perfect organization, masterful equipment and finest workmanship was surmounted to give to America this finished product.

Power, construction, dependability, accessibility, performance, beauty and within the reach of everyone as to price, was our objective and it has been reached.

The very words "Armistice Day" conveys to your mind achievement. The very word "Buick" does not make you stop and think, you know immediately it also means achievement.

If you are interested in an automobile, we are at your service.

ARMISTICE

DAY

Four years of peace—four years of blessing—four years of reconstruction have passed since that eventful Armistice Day of 1918. America, particularly, is thankful that it can celebrate this November Day, firm in the belief that it will never raise an arm except in defense.

The Armistice Day of this year is an occasion for rejoicing—one of thanksgiving—that America will rapidly recover from the world war wounds and gradually regain its strength and stam-
community to commemorate this occasion fittingly.

A Day for Thanksgiving

Armistice Day is truly a day of thanksgiving. Four years of peace have almost healed the wounds of the world's greatest catastrophe.

A Better Day's Work

Evolution cannot be questioned. Look around you and see the wonderful advances made in modern equipment, the systematic principle on which agricultural advancement has been made. The Chinese over a thousand years ago invented credit and ink. They were the first printers, porcelain and hundreds of other things that are being used today, but what advances has China made in civilization in the last thousand years? The situation in China today is the answer.

The lack of modern equipment will retard the advance of any successful enterprise, whether it be a farm or a nation. We extend a cordial invitation to the "BACKBONE" of Wilbarger county, "THE FARMERS" to come in and talk over their ideas and our ideas of modern efficiency, and how it can be strengthened by the proper use of modern farm implements.

AMERICA AND ARMISTICE

How does America feel toward
Armistice day and toward the
men who helped to make the day
possible four years ago? This
is a question which ex-soldiers
and ex-sailors are asking. To
many persons the day will be
merely a holiday—affording,
perhaps, a chance to quit work
and enjoy a few hours of recrea-
tion.

But to fathers and mothers
whose boys were in France on
the eleventh of November, 1918,
the day is set apart—different
from all others. And to the boys
who watched from the lines and
marvelled at the strange silence
which followed the whine of the
shells on the morning of the
eleventh, Armistice day will
have a special meaning.

The thrill of that morning will
never be forgotten by those who
watched from the lines or made a
last thrust for ground held by
the Germans. The world dawned
new when the shelling ceased,
and in the unnatural quiet which
followed weeks and months of
the tumult of war, dreams of a
new earth in which war would
find no place were perhaps par-
donable.

Four years have gone since
then. Soldiers returned to be
greeted by an enthusiasm which
sometimes failed to be tempered
with understanding. Later, the
attitude of the public beame in
too many cases one of indiffer-
ence.

Veterans of the world war are
now starting on the fifth year
of a campaign which should nev-
er have been necessary—the
campaign to secure adequate hos-
pital treatment for wounded
comrades. In later years, when
the sacrifices of the boys in olive
drab are more fully understood
and appreciated, the post war
record of our government with
respect to sick and wounded sol-
diers will be a cause of shame to
every patriotic citizen, as it is
now to those who are familiar
with the real facts.

The soldiers of America have
won the respect of the public
through their manly conduct in
the difficult days of reconstruc-
tion, as they won the admiration
of the world by their reckless
courage while the war was on.
They are playing a great part in
the industrial and moral arena
of the nation, and as time goes
on they will play still a greater
part.

Regardless of how any citizen
feels on the question of compen-
sation for able bodied soldiers,
the public should support to the

limit the hospitalization program
of the American Legion. It is a
program which is reasonable and
its demands are the demands of
common justice to those who of-
fered their lives and came back
maimed or wounded from the
war, or were victims of the ter-
rific demands on health and
energy made in the training
camps.

"GO TO CHURCH" DAY

It is to be hoped that far
reaching good will be accom-
plished by the "Go to Church"
movement launched by the
churches of the city in an effort
to get every man, woman and
child who is able to attend to be
at Sunday school and church next
Sunday morning. A new high at-
tendance mark should be set Sun-
day and a new vision of what the
churches can accomplish should
be received by religious leaders.

With more than two-thirds of
the high school students study-
ing the Bible in connection with
their regular work, a revival
meeting drawing large crowds
at one of the churches, and the
present co-operative movement
on foot, a great awakening in the
religious life of Vernon is in
sight. But the good which the
individual receives will depend
on whether he takes advantage
of the facilities for spiritual
growth which are offered.

The spirit of harmony and the
desire for mutual service which
have made the concerted move-
ment possible are in themselves
remarkable. When all denomi-
nations unite to "put over" a
proposition there must be a basic
appeal behind it.

**GAS FROM THE AMARILLO
FIELD**

Press reports from Amarillo
tell of a group of Denver capital-
ists preparing to expend millions
of dollars in piping gas from the
Amarillo field to Denver and oth-
er Colorado cities. According to
the papers, the project is very
likely to materialize.

The Denver men's investiga-
tions have convinced them that
the greatest natural gas field in
America, if not in the world, is
situated near Amarillo, accord-
ing to one story concerning the
proposed venture.

The mere fact that such a pro-
ject is being seriously discussed
with reference to Denver is good
evidence that the Amarillo gas
field could be expected to supply
abundant fuel to this section of
the country for many years to
come.

There are a number of well
built cities and towns between
the eastern limit of the heavy
gas area and Vernon. There is
no reason why, if a franchise
could be secured in these places,
a gas line to serve them all could
not be built at a reasonable cost.
And such a line, together with
distribution systems in each
town and city it served, might
prove to be a very profitable
venture.

The section which a system of
this sort would supply is develop-
ing rapidly, and all of the centers
of population along the route can
reasonably be expected to show a
steady growth. Moreover, new
industrial and manufacturing
plants are being put in each year,
and these are heavy consumers of
gas, in places where it can be se-
cured at a reasonable figure.
Conversely, a good gas supply is
one of the impelling motives in
influencing new enterprises to
start up in business.

There is nothing mythical
about the Amarillo gas field.
Enough tests have been drilled
to prove that the gas is there, in
unlimited quantities. The need
for gas in the string of hamlets
and cities running from here
northwest, is equally real. The
profit to be derived from such an
enterprise could be determined
by a preliminary survey which

C'EST LA GUERRE

BY PAUL C. YATES

(Reprinted from the Home Sector)

Old Ephraim Corliss lit his pipe and leaned back in his chair.
Said he, "My John that went to France, you can't beat him nowhere.
One night John went out on patrol—alone, ye understand,—
And he met six husky Germans in the wilds of Nomansland.
Both him and them was armed but yet they dassen't fire a shot,
For cannons of both armies was entrained upon the spot.
But John allowed he'd mix it with 'em like he used to do
When Martin's Valley raised a row at Oak Grove's barbecue.
There ain't been no such battle since the badger fought the coon
Through ten changes of the weather and three changes of the moon
But John laid out all six of them. His colonel heard of it
And danced a jig and hummed a tune and nearly throwed a fit.
Said he, 'I never heard the like; my mind is in accord'
That every one concerned in this shall have a fit reward.
I'll give the lad a corporal's stripes; the top that sent him out,
I'll have him wearing shoulder bars by night beyond a doubt.
The captain that commanded him shall git a Croix De Guerre,
And on the strength of such a deed I'll rise to brigadier.
Well, now, it worked out jest that way, but John was soon reduced.
He had a button off his coat—he said it busted loose."

should not cost a great deal of
money.

Here is a situation which could
soon be resolved into action. The
only thing needed is a concerted
effort on the part of the business
interests of the section to be
served. The Record believes that
the matter is of sufficient im-
portance to justify the Vernon
Chamber of Commerce in taking
the initiative and arranging a
conference of Chambers of Com-
merce from all the places likely
to be interested in such a move,
to the end that the plan be thor-
oughly discussed and plans made
for its realization.

An offer of a liberal franchise,
with proper safeguards, made by
the city of Vernon alone would
not be likely to arouse any great
amount of interest on the part of
capitalists who are engaged in
the utility business. But the
same offer, made by 10 or 15
towns and cities, would imme-
diately attract the attention of
big business interests by its mag-
nitude alone. In all probability
it would not only do this but
would cause spirited competition
among men who are well able to
finance and put through such an
undertaking.

Foster's Bulletin.

Washington, Nov. 9.—North American precipitation for the year beginning Oct. 1, 1922, is expected to be less than the ten-year average. Of course some sections will get more, some less; the important thing for the producer to know is what the prospects are for his immediate vicinity so he may know what kind of a crop to plant and sow. A shortage of rain means a shortage of crops as a general average and that means good prices for products of 1923. The absence of severe storms for about twenty days of October brought out general complaints about dry weather. From near Nov. 10 to 30 sufficient severe storms are indicated to bring a good general average of moisture that will be favorable to

winter grain. My information is that the beginning of the crop season indicates bad crops in Australia, New Zealand and the islands near them; only fair crops in South Africa; good crops in Argentina. Shortage of wheat and rye crops in Europe is greater than heretofore reported. World conditions continue to indicate a world shortage of grain for 1923. Some countries will produce above normal crops but more below. Local forecasts follow:

Colder than Usual

Section 1: North of 47, between 90 and Rockies' crest; lowest temperatures Nov. 12 and 20, highest 16 and 24; Average colder than usual; coldest near 20; most severe storms and most rain during week centering on Nov. 14.

Sec. 2: North of 46, east of 90; highest temperatures 11 and 18, lowest 14 and 22; average about normal; most severe storms and most rain during week centering on 16.

Sec. 3: Between 39 and 46 and between 90 and Rockies' crest; lowest temperatures 11 and 16, highest 14 and 18; average much warmer than usual; most severe storms and most rain during week centering on 14.

Sec. 4: East of 90, between latitudes 39 and 47; highest temperatures 11 and 15, lowest 13 and 17; average much warmer than usual; most severe storms and most precipitation during week centering on 16.

Sec. 5: South of 39, between 90 and Rockies' crest; lowest temperatures 10 and 20, highest 14 and 24; average cooler than usual; most severe storms and most rain during week centering on 17.

Sec. 6: South of 39, east of 90; lowest temperatures 12 and 22, highest 17 and 26; average much warmer than usual; severe storms and most rain during week centering on 17.

Sec. 7: North of 43 1-2, west of the Rockies' crest; lowest temperatures 10 and 18; highest 14 and 22; average cooler than usual; severe storms and most precipitation during the week centering on 14.

Sec. 8: South of 43 1-2 to Mexican line, west of Rockies' crest; lowest temperatures on 10 and 18; highest 14 and 22; average much warmer than usual; most severe storms and most rain during week centering on 15.

I am always pleased to receive suggestions from readers of this paper and always reply. I am all the time trying to improve my work, and the best information I get as to what my readers most desire comes from them. Everything about my weather work is new; I am not following the method of any other person and progress is necessarily slow where there are no experiences nor examples as guides. As a rule, most of our knowledge comes from others; that is true in my case except as to the foundations of my weather work. The most important thing to those interested in producing farm products is future weather, and I am very much interested in the wishes and opinions of readers of this paper on this subject.

NEW TREATMENT PREVENTS MOLD IN TUBS OF BUTTER

The growth of mold on butter in tubs is a cause of great annoyance to dealers and a common source of loss to creameries. Preventive treatments designed to do away with this trouble have been devised by various people, and these have been carefully studied by the United States Department of Agriculture. The treatment that has

been found most successful consists in soaking the tubs in cold water, steaming them for 30 seconds with live steam, paraffining the inner surface, and then rubbing over the paraffin with salt. In addition, the liners for the tubs are soaked for 30 minutes in a saturated solution of boiling brine. Under the supervision of the department several millions pounds of butter have been packed in tubs and lin-

ers treated in this manner and no cases of mold have been reported. Reducing the losses from these rots is a complex problem, requiring much more investigation. At present the department can go little farther than to say that primarily it involves a careful consideration of environment, soil fertility, and the nature of the particular strain of corn.

CONFERENCE MAKES NO LOCAL CHANGES

PRESIDING ELDER, CIRCUIT PASTORS AND MINISTERS RE-ASSIGNED HERE

The annual session of the Northwest Texas conference, which closed a four-day session at Quanah, last Sunday, was one of the most enthusiastic in the history of the association, according to Methodist ministers and laymen of this county who attended. A number of ministers were assigned to new work but Wilbarger county pastors were nearly all retained in their places. Robert E. Dickenson was returned to the Vernon pastorate and Rev. W. P. Garvin was retained as presiding elder of the Vernon district. Rev. F. T. Johnson, pastor of the Vernon circuit, was reappointed to the place.

Several changes of interest to Methodists of this section were made by the conference. Rev. J. W. Storey, presiding elder of the Amarillo district for the last four years, was appointed to the Quanah pastorate. Rev. W. M. Murrell, pastor at Crowell, was assigned to Chillicothe. Rev. L. N. Lipscomb of Chillicothe was sent to Hereford. Rev. A. J. Moore of Memphis was appointed presiding elder of the Stamford district. Rev. G. W. Shearer, formerly presiding elder of the Lubbock district, was chosen presiding elder of the Amarillo district. Dr. E. E. Robinson, pastor of Saint Paul's church at Abilene, was selected as presiding elder of the Lubbock district.

Dr. Dickenson was appointed to serve on three important boards, which were chosen for four years' work. He was selected as vice president of the Sunday school board, which has general supervision of the Sunday schools, of the entire conference, comprising eight districts. He was chosen as secretary of the board on hospitalization, which has an important work to perform, namely the stimulation of interest in the building of denominational hospitals in the Northwest Conference. Dr. Dickenson also was appointed a member of the social service board.

Dr. Dickenson preached at the Christian church at Quanah Sunday morning before a large audience. Bishop James E. Dickey, who presided at the conference, made an educational address which was said to be especially fine. Sunday morning he preached a sermon which proved a wonderful spiritual uplift to the auditors and left most of them shouting, laughing or weeping.

Among the visitors to the conference were Dr. T. J. Ellis, general secretary of the board of church extension, Dr. Stonewall Anderson, secretary of the board of education, Dr. W. B. Hicks, representing the centenary movement, and Dr. Weeks, representing the board of missions. The conference will meet next year at Plainview.

POSTAL AUTHORITY APPEALS FOR COOPERATION OF PUBLIC

(By Dr. Frank Crane)

The other day the postmaster at Chicago had placards put on the motor vehicles operating in the Postal Service reading as follows:

STOP THIS WASTE!

25,000,000 pieces of mail annually are delayed or not delivered at all. Because they are incorrectly addressed or improperly packed.

The postal authorities call our attention to the fact that there are 25,000,000 pieces of mail that they must handle three to seven times oftener than they would have to handle them if they had been properly prepared. And even after they have exhausted every means of identification and salvage they succeed in delivering only slightly more than one-fifth of the amount.

And this does not include vast quantities of circulars and newspapers which are not properly addressed and which are destroyed because they cannot be delivered.

In Chicago there is one building that is used as a storage place for mail of obvious value and for mail of first class which can not be delivered. Twice a year the contents are auctioned off, because there is no way of finding the owners. In this building are bins of shoes, quantities of clothing, dress goods, automobile parts, and tires sporting goods, suit cases—everything from a bird cage to a mouse trap. These are lost to both the one who sent them and the one who should receive them because somebody was careless in tying a knot, or used flimsy wrapping paper, or put on a defective address.

Nearly 300 employees are engaged in correcting the common, preventable errors of the people. The only reason on the post office can stand this drain of carelessness upon its resources is that the people pay the bill.

There ought to be a general campaign of education with the object of impressing upon the people the importance of properly preparing and addressing anything they put into the mail box.

Another waste, caused by sheer thoughtlessness arises from the custom of many business houses holding their mail until the close of the business day when they rush it to the postoffice in a perfect deluge. All day, canceling machines, distribution cases, and other facilities for handling mail practically idle and just after 5 p. m. they are taxed beyond their capacities. If people would simply change their mailing habits to the extent of depositing their mail even two hours earlier than they do at present, it would revolutionize the Postal Service.

This article is written in the hope that many people will adopt the idea of paying better attention to their mail matter.

After all, the postoffice is the great public servant, and it behooves every citizen of the country to make that servant as efficient as possible.

Much of the criticism leveled at the post office is due to the carelessness of the general public.

First Assistant Postmaster Gen.

"LINKS OF DESTINY" THEME AT REVIVAL MEET TONIGHT

A chart sermon entitled "Links of Destiny" will be delivered at the Central Christian church tonight by Rev. Lewis P. Kopp, who is conducting an evangelistic meeting. The sermon will show the relation of every day religious and secular effort to the ultimate goal of the individual. Services will be held on Saturday night, also, with "The Presumptuous Sinner" as the subject.

A message received from R. A. Haley, cartoonist and song leader, who is at present aiding in a very successful revival at Abilene, has been received, stating that he will be here early next week. Members of the church are counting heavily on his services in increasing the already splendid interest which is being manifested in the revival.

Sunday is expected to be another record breaker in the Sunday school and two sermons have been prepared which promise to be helpful and inspiring. At 11 a. m. the subject is "The Lord's Table" and at 7 p. m. the theme will be "The Will of Christ." A chart will be used to illustrate the messages.

TURKEYS

This year we expect to see a good market for Thanksgiving turkeys. In order to get them to the Eastern consumers it will be necessary to start them earlier than usual, as it takes practically twice as long to get a freight car to the Eastern markets now as it did under normal conditions; the strike is not settled by any means.

You should pick out your large birds, gobblers weighing 12 pounds and over; hens weighing 8 pounds and over, that are in good condition and bring them in for the Thanksgiving market not later than the 15th of November. However, it appears that with the large crop in view that the best prices will be paid between the 1st and the 10th of November, with probably lower prices starting about the 11th. WE ADVISE EARLY

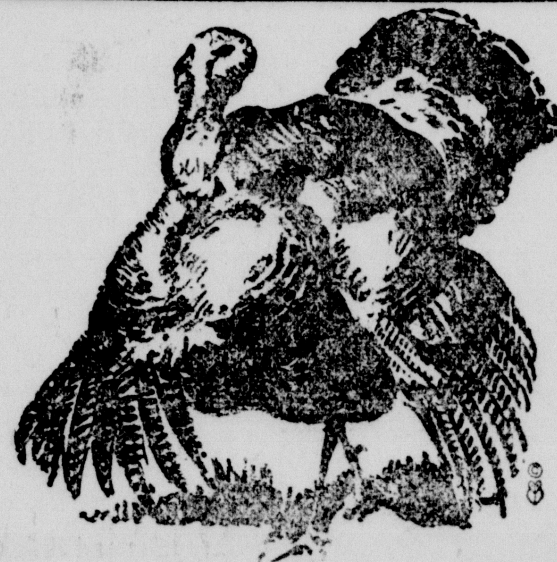

MOVEMENT OF YOUR LARGE TURKEYS. Hold the small ones for the Christmas market. Our dressing stations open October 28th, at all points.

Here we wish to call your attention to the advantage of selling your turkeys to our Company. Mr. Foster, our president, has been in the poultry industry in Southern Oklahoma and Northern Texas continuously for seven years. Our houses are open the year round to receive your produce. We actually operate during some of the summer months at a considerable cash loss, in other words if we would close our houses on the 1st day of June and open them on the 1st day of November we would have several thousand dollars more money than we would have to continue them during these dull months. But we realize the farmers must have a market the year round and we believe it is his duty to patronize the industry that continues buying in his community during the entire twelve months of the year. There are always a large number of small fly by night dealers who are ready to open up on the first day of November and stay during the rush season. Some of these are legitimate and they are fair dealers, but there are some who believe in "getting Theirs" while the getting is good. Better be safe than sorry; patronize the house you know will treat you right.

We buy turkeys, ducks, geese, guineas, hens, fryers, roosters, butter, hides, furs and pecans.

LIONS' CLUB HEARS PATRIOTIC TALKS

ARMISTICE IN ARGONNE FOREST DESCRIBED BY W. T. PONDER

Today's meeting of the Lion's Club was specially arranged to commemorate Armistice day and American flags were on the walls of the dining room and on the table. Following the luncheon W. T. Ponder made a brief address, detailing incidents connected with Armistice day four years ago, when he was on the Argonne front. "Armistice day means more to me than the fourth of July," he declared.

"In 1917 we were fighting for our own independence, but in 1918 we were fighting for the liberty of the world." Mayor Harry Mason declared that the American soldiers who stemmed the tide of the German advance and sent the enemy back toward his own lines represented the finest type of manhood seen in any age or country. He paid a glowing tribute to the soldiers, and to the cause they represented and the flag under which they fought.

L. G. Hawking made a plea for attendance at church next Sunday. Our duty to God is greater than our duty to home, friends or country," he asserted. "The Go-to-Church movement should have the support of all Lions and all good citizens. Its purposes are commendable and I hope the campaign will be a great success."

J. G. Rossmann, a representative of the Central Texas Power Company, and Paul C. Yates, of the Vernon Record, were guests of the club. Each spoke briefly. Marvin C. Culbertson presided at the meeting.

Proceeding the luncheon "My Country 'Tis of Thee" was sung and the Lord's prayer repeated in unison.

MISS STANDIFER TELLS OF SCENES IN PASSION PLAY

Miss Don Standifer of Vernon spoke Thursday afternoon to the Junior English classes at the high school detailing incidents connected with the Passion Play which she witnessed last summer at Oberammergau. Miss Standifer gave a brief history of the Passion Play and told of watching the players perform during a downpour of rain, with the stage open to the sky. The most dramatic moment came when Judas was on the stage alone, filled with remorse over his betrayal of the Savior, she stated. The play opened with Christ's triumphal entry into Jerusalem.

Andrew Lang who has performed the part of the Savior for many years remained on the Cross 20 minutes Miss Standifer stated and the physical strain of this scene was very great on him.

Miss Standifer also told of other places she visited in Europe.

FUTURE OF RED CROSS WORK IN COUNTY TO BE DECIDED

Representatives from luncheon clubs, the American Legion, women's organizations and the churches are scheduled to meet with a committee from the Red Cross next Monday at 4 p. m. at the public library building to determine whether the work of the Red Cross in Wilbarger county shall be carried on or the charter given up and the work dropped.

The action of the Red Cross committee will be guided by the expressions heard at the meeting, and for this reason members of the committee are anxious to secure a representative attendance.

nals, many of them "wanted" men. The chief deputy arrested Cecil Jensen, 18 year old youth who was wanted for the murder of Jimmy McNeal, a Fort Worth service car driver. Officers of three states were looking for Jensen and several detectives were endeavoring to trace his movements after the McNeal killing. He was taken in custody in Breckenridge by Mr. Edmonson 15 minutes after he landed in town. In another hour he had signed a confession admitting his part in the slaying and was on his way to Mineral Wells to meet Fort Worth officers.

A Change in the Oil Fields

During the time that Mr. Edmonson was at Breckenridge a great transition took place in the oil fields of Stephen county. Where "hijacking" had been a nightly occurrence and pipe thefts were too common to excite notice, a respect for the law was established. Many hard characters were sent to the penitentiary, while others drifted out to find new stamping grounds. Mr. Edmonson was a leader in the work of putting down crime and putting criminals behind bars.

About Christmas, 1921, he resigned his place at Breckenridge and came here to enter the race for sheriff. He was elected by a large majority over his two opponents, in the first primary. He has been assisting Jim Key as a city officer for some time.

EXPERIMENTS SHED NEW LIGHT ON CAUSES OF ROTS OF CORN

The severity of the root, stalk, and ear rots of corn, diseases found to be more or less widely distributed throughout the corn belt, can be greatly reduced by properly balancing the fertilizing elements in the soil and by planting selected strains of corn. These conclusions are the result of investigations carried on by the United States Department of Agriculture, in cooperation with a number of state experiment stations in the middle west.

In the past it was not thought that the corn plant was particularly sensi-

tive to the balance of the various elements in the soil, but now the damage caused by these rots is believed to depend largely upon these conditions and upon climatic factors. Also the nature of the plant itself—what plant breeders call the genetic composition—has much to do with its susceptibility or resistance to these rots. In the experimental fields self-fertilized strains of corn of many different varieties are showing peculiarities formerly regarded as symptoms of root, stalk and ear rots, and many strains are being isolated which, even though self-fertilized for many generations, show resistance to the organisms associated with the rots.

RIT OF OLD JAPAN IS SET IN PICTURE

A colorful portion of old Japan forms the background for an important series of scenes in William de Mille's most recent Paramount picture, "Nice People," which comes to the Vernon Theatre next Monday and Tuesday.

The scene is an ultra-modern cafe done in Japanese style. Beautiful Gishin girls serve as check room attendants and cigarette girls. Japanese youths in the costumes of their ancestors fill the attendant positions. Everything except the food, the guests and the music, is Japanese. The first is American, the second are cosmopolitan, and the third is Hawaiian.

The setting is one of the most elaborate and lavish ever constructed for the screen. It consists of a spacious entrance hall leading into a large Japanese garden illuminated by Oriental lights and lanterns, dotted with tables and bosting of numerous interesting pieces of Oriental sculpturing, vegetation, pergolas and pagodas.

The full structure filled nearly half of the new glass roofed stage, recently completed at the Lasky studio. This stage is the largest of its kind in the motion picture industry. Approximately two hundred persons were employed in the filming of this series of scenes.

Wallace Reid, Bebe Daniels, Conrad Nagel and Julia Faye are featured and Eve Sothern, Bertram Johns, William Boyd, Claire McDowell and others are prominent in the cast. Clara Beranger adapted the story from Rachael Crothers' successful stage play of the same name.

Armistice Day

There will be millions of DODGE boosters parading throughout the United States tomorrow.

Every one of them is a DODGE booster. Why? Because, he was shown. It was proven beyond any doubt that the DODGE stood the hard knocks of war. Today, to realize the improvements in his wonderful car, one must come in and look it over.

We extend to the people a cordial invitation to come in and be convinced.

**AUBREY FOSTER TO REFEREE
SCHOOL BASKET BALL GAMES**

Aubrey Foster, of Dixon Dry Goods store has consented to referee basket ball games between schools entered in the interscholastic league. County Superintendent L. A. Hollar stated today. Mr. Foster is one of the outstanding basket ball experts of the southwest. He has had nine years of experience in college athletics, and was for five years captain of the DeCATUR Baptist College basket ball team, which won the state championship in competition with all Texas colleges and universities three years during the time he headed the organization.

Mr. Foster made the all star state basket ball team in 1914 and again in 1915. He served as arbiter of county scholastic basket ball teams two years before entering the army, and devotees of the game will feel gratified to know that he has consented to serve again this year.

Mr. Foster will be unable to referee games on Saturdays, on account of the fact that the Dixon company requires his services on week ends. The county superintendent has requested teachers to arrange their schedules for school days, if they desire Mr. Foster's services as referee.

SEVEN MORE DAYS!

The Candidates in the Vernon Record Big Automobile Campaign Have Reached the Turn

maneuvered themselves into position for the final go, and from now until 10:00 o'clock next Saturday night, November 18, the end of the big votes, will be battling for supremacy under whip and spur.

So evenly have honors been divided up to the present time that it depends almost entirely upon the amount of subscriptions turned in before the close of the first period as to who the ultimate winners will be, and each has entered the final lap with the determination of being the victor or know the reason why.

Only 7 more days—count 'em—Just one week in which to secure "First Period" Votes in The Vernon Record's big \$5,000 campaign; one week more in which to redeem all promises—one week in which to garner enough votes and subscriptions to "cinch" the prize you desire. Your Last Chance for Big Votes. Never again during this campaign will it be possible to secure so many votes on subscriptions as between now and 10 o'clock Saturday night, November 18. To hold back subscriptions, or to rely on "promise" to subscribe at a latter date, simply means that you will have to take less votes on such subscriptions. We are putting it up to you squarely. If you entertain any idea of winning the big prize you cannot possibly afford to let this "period" pass without having done your best. Hard work NOW will count more than all the regrets in the world after the race is over. About 660,000 votes are given with \$24.00 worth of subscriptions for the next seven days.

In The Vernon Record Distribution

If you really KNEW you could own one of the handsome big prizes which The Vernon Record will award next month, you would pull off your coat, roll up your sleeves and hustle day and night, wouldn't you? But when you have an equal chance with the others to win one of them, you hesitate to get busy. Why is it? "Self-Reliance" is all you need. It is what is keeping you from being a motor car owner this minute. If you had just an ounce of it, some terrible misfortune only could keep you out of this election. This is an American campaign, filled with the things typical Americans like—such as hustle, chance, opportunity, speed, luxury—everything combined in a manner to make it exhilarating and worth while. Get in WIN!

Do you want a New Motor Car? Then what keeps you out of this in testing race? Read over the stupendous list of prizes again--Then act--Get the Nomination blank in today--Tomorrow may be too late

SUNDAY CLOSING DAY ON BAPTIST PLEDGES

LEADERS MAKE APPEAL FOR FUNDS TO AID IN WORK AT HOME AND ABROAD

Next Sunday is the last day on which pledges paid to the Baptist society-five million campaign can be entered on the 1922 record, and a special appeal is being made by Baptist leaders over the county, to those who are in arrears on their pledges. The following articles dealing with the campaign is printed in this connection at the request of the local Baptist pastor, Dr. L. J. Minus:

The undersigned would send most cordial Christian Greetings to their fellow Baptists, in every nook and corner of Texas expressing the earnest hope that the present "Catch-Up Campaign" to provide one million and five hundred thousand dollars, is being everywhere carried forward in the spirit of whole hearted joyfulness, and with the high purpose to win.

Serious Issues Involved

The interests and issues involved in this campaign are too serious and tremendous for any Texas Baptist to be willing, on any plea, to stop short of his or her best help in the campaign. All of our co-operative work, missionary, educational and benevolent, both at home and abroad, is bound up on this campaign. All of this co-operative work, let us ever remind ourselves, is wholly dependent upon our voluntary co-operation. The state levies taxes for the carrying forward of its enterprises, Christ's cause is carried forward by the voluntary gifts of His friends. Every one of us is therefore put upon his or her sacred honor, both in the sight of the people and in God's sight, to give our utmost loyalty and support to that cause in which are wrapped the highest hopes and the supreme interests of mankind, both for today and for the long tomorrow. If Texas Baptists should dilly-dally in such an hour as this and with such a campaign as they are now waging, they would mortgage the future and put shackles on their children's children, for generations to come.

God is setting His seal in a marvelous way to the work that is now being done by our Baptist people. Their great program in recent years has been so startling and daring, and so wonderful in co-operation, as to challenge the attention of mankind around the globe. In the wake of such vastly enlarged program, new missionaries have gone forth by the hundreds, and new converts have confessed Christ, and followed Him in beautiful baptism by the hundreds of thousands. Our Christian schools have all been strengthened and enlarged, and trained Christian students are being sent forth in ever enlarging numbers to strengthen the churches and to bless the world. Our orphanage and hospitals have been greatly fortified and new ones built, so that God's grace is being gloriously exemplified by the ministry of healing. Our churches and all their agencies have been so vitalized and blessed by our enlarged program as to call forth devout thanksgivings from

all our hearts. For Texas Baptists to be half-hearted in such an hour as this, or to allow themselves to be diverted from the work of caring wisely and worthily for their present "Catch-Up Campaign" would be far worse than a tragedy. It would be treasurable to the incomparable trust committed to us by our Lord Jesus Christ and treasurable to the highest welfare of souls for whom He died.

Influences at Work
There are well known influences at work to divert Texas Baptists from their great campaign. For one thing there is going on a statewide political campaign, with an election soon to follow. We would not minimize the duty of Christians to be true to the high obligations upon them in the realm of civil government, but we would from our deepest hearts adjure them not only to "Render unto Caesar the things which are Caesar's" but also to remember to "Render unto God the things which are God's." God's people are to have the sense of perspective, the right viewpoint—they are to seek first the Kingdom of God and His righteousness. It is righteousness which always exalts a nation, while sin is ever a reproach and a waste to the people. If Christ's cause should be ignored, then nothing would be stable and safe in the social order. For a people to seek to build a civilization without regard to the will of God would be to build it on the shifting sands. Christ's cause is the one only hope and help for humanity, in all realms. That cause should be given the first place, every moment, in all our lives.

We would speak here briefly but frankly concerning the well known and noisily aggressive and spectacular efforts that are being put forth in Texas, not only to hinder the present campaign, but also to cheapen and hinder the advancement of all the co-operative work fostered by our Texas and Southern Baptist conventions. Texas Baptists will meet this opposition just as they have met such opposition before; that is to say, they will completely answer and expose the inaccurate and reckless stream of statements sent near and far, concerning our Baptist work and workers, and they will at the same time redouble their efforts to provide worthy gifts to carry on the work. We send the frank word to our brethren and sisters everywhere that while the opposition above referred to is both deplorable and execrable, yet the outcome of such opposition to Christ's cause will be what it has always been before—pitiful confusion and shame to those who have trifled with Christ's work, and greatly added triumphs to the work itself. We will now remember Paul's great word: "But I would ye should understand, brethren, that the things which happened unto me have fallen out rather unto the furtherance of the Gospel." We will also remember his faithful admonition to "Stand fast in one spirit, with one mind, striving together for the faith of the Gospel; and in nothing terrified by your adversaries; which is to them an evident token of perdition, but to you of salvation, and that of God."

A Great Victory

Our hearts are warmed to the depths when we remember how quickly Texas

Baptists have again and again accomplished a great victory in a brief time. They are called now to achieve a mighty victory in a few fast-passing days. They are abundantly able to accomplish such victory, for God has marvelously blessed them both temporally and spiritually. Let us with one heart and "with both hands earnestly" now dedicate ourselves to the winning of that victory. Let us do twice what our churches did a year ago, in order to grapple victoriously with the acute needs and constantly enlarging opportunities of all our Baptist enterprises.

The whole situation makes the most challenging appeal to pastors, deacons and other officials in our churches. Let such leaders recall that deeply significant sentence in the Book of Judges: "For that leaders took the lead in Israel, for that the people offered themselves willingly." Let us faithfully make the expression: "The leaders took the lead." That is the high business of leaders to lead the people in the right things, the leaders themselves seeing to it that they set the right examples for the people. Following such leadership comes the other significant expression: "The people offered themselves willingly." God grant that every leader in every church in Texas may now lead the people in this campaign according to the will of God. And may the people in the churches, all the estates of all the people likewise make just that response to this campaign which shall be according to the will of God! Through every day and hour leading up to the Waco convention, let us all and each, by prayer, by personal testimony, by our best gifts, seek to fortify the campaign according to the will of God. And in the Waco convention a few days hence, let us gather, the Lord willing, to take most faithful counsel with one another and with God how to win still more glorious victories in His name in the great days which are just ahead.

the Vernon Record's report issued on Oct. 17, which placed the total for the county up to that day as 17,217 bales. Foard county, according to the government report, ginned 5,329 bales up to the middle of October, as compared with 4,515 bales on the same date last year. Wichita County ginning receipts amounted to 3,867 bales, a gain over the total of 2,173 on a similar date in 1921. Hardeman county showed 11,552, a big increase over last year's report, which gave only 7,501 bales on Oct. 15. Baylor county is credited with 7,130 bales in com-

parison with 4,781 bales at the same time last year. The total for the state on Oct. 15 was 2,644,294 bales. Last year on Oct. 15, it was 1,738,553 bales.

Ellis county lead the state in cotton production, with a total of 67,504 bales. Navarro county receipts were

61,962 bales and Collin county 59,576 bales.

COUNTY FEDERATION PLANS TREE PLANTING CAMPAIGN

An extensive tree planting campaign in Wilbarger county will be launched this fall by the County Federation of Women's clubs, according to announcement made this week. The slogan of the campaign will be "Every Woman Plant a Tree," and the federation will

ask every woman in the county to plant at least one tree, and as many more as possible.

Nowhere in the Southwest do climate and soil favor the growth of trees more than in Wilbarger county. It was pointed out this week by federation members. It is hoped that the tree planting movement launched by the Home Science club, with such excellent re-

sults that Vernon is now known as the most beautiful town on the Denver railroad, will be extended over the county through the efforts of the Federation.

Next Seven Days to Show Top Notchers

Contestants Are Running In Bunch Now But End Of First Period May Find Some Leading Field With Big Majority—Many Accounts Being Paid—Thousands Of Votes Cast

The greatest vote offer of the entire Vernon Record election is NOW IN FORCE and the coming 7 days will no doubt prove the most important of the whole campaign to candidates. This is without question the opportune time for candidates, both present and prospective, to get a lead in the race. The wise ones will lose no time in getting busy at once to gather in a harvest of extra votes during the present vote schedule.

Those who have been thinking of entering the big gift distribution campaign and those whose names now appear in the list, but as yet have not started an active campaign will find no better time to do so than right now. With the present big vote schedule in effect, giving a new candidate a chance to pile up votes on the double quick, no one should delay entering the big campaign with determination and earnestness to win this week.

The Vernon Record's big election of fers people of this community an opportunity to choose from the greatest, and most costly list of gifts ever offered in this part of the state. The beautiful 1923 cars of the latest model; hundreds of dollars in gold and silver awards stand awaiting you. And yet these valuable prizes are simply going begging for lack of active workers to compete for them. While the Vernon Record has been receiving hundreds of clipped coupons from the paper for the various candidates and a great many subscribers have paid up their old accounts and renewed their subscriptions, giving their votes to their favorites, only a few candidates have really commenced their campaign in earnest. And this is the time to do that very thing—this is the time to get your subscriptions in while they count so many votes. Those who have the foresight to see the tremendous value in votes of subscriptions as compared with the coupons and get their campaigns started while the present big vote schedule is in effect will be well paid for their efforts.

This is the week to enter and pile up votes on the big vote schedule. Start out now in earnest and you will be surprised at what you can accomplish with the assistance of the biggest vote offer of the entire race.

Campaign Notes

Just as in a horse race, the runners have started out closely bunched as they leave the barrier, but from now on it can be expected that those making the greatest efforts are bound to pull out in front of the slower ones. The next seven days may be the deciding period of the whole campaign.

Some of the candidates in the lists are beginning to concentrate their efforts in "electioneering" on the securing of subscriptions and renewals, if some of the gains that appear in the count today are a criterion.

All of the candidates should quickly come to a realization that now is the most important time of the whole campaign. Subscriptions pile up votes mighty fast.

The Vernon Record campaign is a short one—it's "all out and over" next month. All prizes, cash and automobiles, will be distributed in December and this is November.

Those persons who have been contemplating entering the mammoth prize distribution should not delay sending in their nomination blanks, and getting busy at once. Time is flying and the entire campaign will be over before it is realized.

Here's a prediction that is going to come true when this election is over—just as certain as fate. When the final count is made and the prizes distributed, there's going to be a lot of persons figure up just how easily some of these valuable awards are won and see that they could have done just as well or better than those who will

EDMONSON ASSUMES DUTIES OF OFFICE

NEW SHERIFF HAS HAD CAREER OF THRILLS AND NAR- ROW ESCAPES

The resignation of Sheriff W. A. Ish, offered a few days ago, took effect this morning and Frank Edmonson nominated in the first primary and elected to office Tuesday, was sworn in and assumed his new duties.

Mr. Edmonson stated today that he is not ready to announce the appointment of deputies. Four or five men residing in Vernon and in other towns of the county, will be named about the first of next month. Mr. Edmonson stated, and Jim Carrington, deputy under Mr. Ish, will continue in his duties as jailer until then.

In taking over the office the new sheriff stated that he is anxious for the citizens of the county and the business men of Vernon to cooperate with him in the enforcement of the law, and that this cooperation is necessary if criminals are to be brought to justice and violations of the law kept down.

Mr. Edmonson brings to his new work the acumen gained in years of work as a peace officer. His life has been one of adventure, thrills and narrow escapes from death, and he has several times received national publicity through some daring exploit.

Lure of the Ranches

He was born on a farm in Bowie county, Tex., where he remained until the lure of the ranch country further west claimed him, and he went to work as a cowboy. When he was 20 years old he accepted a position on the Oklahoma City police department. He worked for the police and sheriff's departments in Oklahoma City for seven years, when he went to Los Angeles and accepted a position with the Nick Harris detective agency, one of the largest on the West Coast. Later he went to work for the Los Angeles detective force.

Mr. Edmonson was one of a trio of men who volunteered to test a new aeronautical device in April, 1916. A balloon owned by the municipality of Los Angeles and used by the police department in work along the water front, was selected to carry the men on their trial flight. The instrument to be tested was a new type of statorope, which its inventor claimed was so delicate that it would register the rise or fall of an airplane or balloon if it moved as much as a foot.

The flight was started on April 18, at eight a. m. The balloon ascended to an altitude of 12,000 feet, where it was buffeted back and forth by shifting air currents, and finally carried eastward, over the high ranges of the Sierra Nevada mountains. Hours of travel followed, during which the occupants made desperate efforts to work the throttle which released the gas, but it had become hung and refused to work. Finally Jack O'Connell, the pilot, climbed the ropes which anchored the basket to the huge bag, and released the valve. A gust of wind struck the balloon and he slipped and fell, but by some freak of fate he fell back in the basket.

Land in a Canyon

Mr. Edmonson and his companions landed in the Telegraph canyon, miles from the nearest ranch house, Tuesday night. They walked back to civilization the next day. A number of search parties were out looking for them.

Mr. Edmonson came to Vernon shortly after receiving his discharge from the army, where he enlisted during the world war. He worked for a number of months on the city police force, and made many raids and arrests. He went to Stephens county, when Sheriff L. D. Head took office there, and assumed the position of chief deputy.

Mr. Edmonson's work at Breckenridge won attention throughout North Texas. When he began his duties the oil fields were infested with crim-

PANHANDLE COUNTRY BOOSTED BY BANKER

C. HERRING SAYS 'WONDERFUL DEVELOPMENT GOING FOR- WARD IN WEST'

Rev. Lewis P. Kopp made a brief address to the Rotary club at the weekly meeting and luncheon Tuesday, stressing the importance of the "Go to Church" campaign.

"The Rotary club, standing for the highest ideals of the community, state and nation, can have a wonderful influence in aiding the "Go to Church" movement he declared. The campaign to get Vernon out to church Sunday should mark a turning point in the religious life of this city."

C. T. Herring, of Amarillo, president of the Herring National bank and a member of the Rotary club of Amarillo, gave an interesting account of the work being performed by Rotarians in his city. He stressed the accomplishments of the club in its students' loan fund work and described the wonderful development now going forward in the Panhandle country.

Mr. Herring arrived here a few days ago for a business visit.

R. H. Coffee gave a report on activities of the Lee Highway association. The action of the interstate conference of engineers and road officials at Fort Worth in finally designating Wilbarger county as part of the route for two great highways was declared by Mr. Coffee to be of great importance to the county.

E. C. Christian, J. L. Swartwood and Owen Brunson were chosen as a committee to meet with a committee from the Red Cross next Monday when a decision regarding a roll call and membership drive will be reached.

POULTRY MEN LEAVE FOR MUNDAY SHOW

Adam Donges and L. P. Kramer, poultry experts of Vernon, left this morning for Munday, Tex., where they have entries in the poultry show which opened Wednesday to last until Saturday night. Mr. Donges is exhibiting a young pen and a cock and a cockerel. His breed is the buff Orpington, and he has never failed to take blue ribbon on his entries wherever they have been shown. Mr. Kramer is showing a pen of his barred rocks. He has won many ribbons on this breed.

Mr. Donges sold a trio of fowls to a Munday breeder this week for \$25.

Many entries have been made at the Munday show, and breeders from all over West Texas are taking part. Poultry shows in West Texas this year have been meeting greater success than ever before in their history, according to journals of the industry.

Farm Bureau Man Will Speak

G. R. Thompson, special representative of the Texas Farm Bureau, accompanied by a representative of the Growers' National exchange, will be in Vernon Tuesday afternoon, to speak at the library building to members of the farm bureau in this county. The public is invited to attend the meet-

150 FOWLS ENTERED IN ANNUAL POULTRY EXHIBITION ALREADY

Show Will Be Most Successful in History of Association, Officials Declare; New Premiums

With the annual show of the Wilbarger Poultry Association more than two months off, more than 150 fowls already have been entered for competition, H. D. Hockersmith, secretary of the association, stated today. The Shive building between Hawkins & Williams and McCelvey's grocery store, has been secured as an exhibit hall.

"While this is not as large a building as the one we had last year, it is admirably adapted to the purpose, being light and well ventilated," Mr. Hockersmith declared.

Entries and inquiries from many of the best known poultry breeders of the Southwest have been received, and Mr. Hockersmith and Adam Donges, president of the association, declare that the outlook is bright for the most successful show in the history of the association.

In addition to the regular cash premiums, the show is offering several special premiums, including a \$50 cash prize for the best display, open to all breeds. No entrance fee is charged for this premium, the only requirement being that the birds must have been previously entered in the show. The display will consist of 15 birds, or three pens, all of one breed.

This is believed to be the first time such a prize has been offered at any poultry show in the southwest.

Another feature which is attracting unusual interest is the settling of eggs offered as prizes. Among these will be eggs from some of the finest flocks in the United States.

Merchants and business men generally are backing the show this year in a way never experienced before, according to officials of the poultry association. Mr. Hockersmith, who has been soliciting advertisements for the premium list, said today that he is meeting with all the encouragement he could ask. The catalog of the show is expected to be completed in a few days.

Will Sell Last Bushel of Pears

The last bushel of pears from the J. A. Lutz orchard of 30 acres will be offered the public next Saturday by the Parent-Teachers' association of the high school. Proceeds from the sale will go to aid the work being carried on by the organization.

Negro Seeks Whiskey In Store-room; Sees White Robed Figures

A comedy in three acts was staged at a Vernon hotel this week, when a negro porter was advised by guests he could find some whiskey in the store-room, which was very dark. The "white lightning" was hidden in a barrel, the guests said. The darky made a search for the precious fluid, after eyeing the black interior of the store room for a while. Two figures came up from the rear, clad in the regalia of the Ku Klux Klan.

The negro paused in his search for the precious fluid, some canny instinct warning him of the noiseless approach of the white clad figures. He straightened up and remarked in pleading tones: "Feet, don't go back on me now, when I've in a tight lark dis!" Then he made a wild dash for the out-of-doors.

The hotel was minus a porter for several days, before the negro again showed up for work.

A. & M. EXPERTS TO ARRIVE NEXT WEEK

FIRST FARM SURVEY IN PANHAN- DLE WILL BE MADE IN THIS COUNTY

Two A. & M. experts will arrive here next week to conduct the first farm management survey ever made in Northwest Texas. The men are R. K. Whelpton, of the department of farm management of A. & M. and W. F. Daugherty, of the extension department. They are expected to arrive in Vernon Sunday night and go to Oklahoma or Harrold Monday to begin their work.

An intensive survey will be made at Oklahoma and Harrold, and data on farming over the county, with special reference to wheat raising, will also be gathered.

The two experts will be assisted in their special survey by V. R. Glazener, principal of the Oklahoma school, and R. S. Covey, principal of the Harrold school. Both are A. & M. graduates. In gathering general data on the farm resources of the county, they will have the assistance of P. D. Chaney, agricultural agent of Wilbarger county, and also a graduate of A. & M.

The A. & M. men will make a summary of the data gathered here, and will probably return in the spring to conduct a short school along lines indicated by the survey to be needed. The data also will be used by students at A. & M.

Bourland Adopts Catchy Slogan

"Turn the crank on the phonograph for the Bourland school," is the slogan adopted by students at the school for a tag day sale. Needless to say, the sale is to provide money to purchase a phonograph.

WORK ON NEW BRICK STRUCTURE STARTED

Work has been started on a one story brick store building, located just west of the Farmers State Bank on Wilbarger street by W. H. Evans, who owns the lot. R. I. Jones has a contract for construction of the building, which will be 54 by 100 feet in dimensions. It will be of fireproof type.

On completion, the building will be occupied by the Hawkins & Williams Furniture company, which at present is located on North Main street. It is being specially arranged to serve the needs of the furniture company.

OUR VETERANS

The most American thing in America is an American war veteran with a wound in his body. Why not cultivate the acquaintance of a war veteran?

He is a true American aristocrat. He was a hero when he responded to the call and before this generation has passed away he will be the recognized hero on every state occasion.

For us he crossed the sea. For us he tramped over strange battlefields. For us he stood knee deep in the mire of wet trenches. For us he went over the top. For us he faced bomb, bullet and battleflame. For us he stood between the enemy and our flag.

Salute him. Invite him to your home. Dine him in your club. Be good to a veteran.

MISS PYLE TELLS OF MUSIC CONTEST

SPEAKS AT ALL SCHOOLS OF CITY VERNON CLASSES READY TO START

Miss Henryetta Pyle, of Wichita Falls, spoke to teachers, members of the Parent-Teachers' association and the Musicians' club and school patrons and pupils, at the high school building Wednesday afternoon, explaining the music memory contest and its value to school students. Miss Pyle is responsible, more than any other person, for the fact that the contest is now a part of the Interscholastic League work, and therefore a part of the regular school work in most places.

Miss Pyle spent Thursday visiting the Ward schools and explaining the contest to the pupils. She spoke at the Shive and Central schools in the morning and at the Parker school in the afternoon.

All of the Vernon schools are now equipped to hold the contest, the Parent-Teachers' Associations having purchased phonographs and most of the needed records for each school. The fifth, sixth and seventh grades are the only one eligible to enter the league competition. Training of pupils in these grades will be started in a short time.

The aim of the course is to familiarize the students with work of great masters in music, and to teach them to recognize each composition. History of classic music and its composers also is taught.

HIGH SCHOOL HOLDS ARMISTICE PROGRAM

MAYOR, LEGION REPRESENTATIVE AND STUDENT DE- LIVER ADDRESSES

Patriotic exercises, including a flag raising, were held at the high school building this morning, in commemoration of Armistice day. The students sang the Star Spangled Banner and America, and the high school orchestra played two patriotic selections. Eva Katherine Rayzor, high school student, gave "Home Again, Home Again" as a reading. Marvin C. Culbertson made an address on behalf of the American Legion.

The students and teachers then marched from the auditorium to the school grounds, where an American flag was raised, with Mr. Culbertson officiating. Mayor Harry Mason spoke briefly giving the famous "Tribute to the Flag."

Exercises in honor of Armistice day will be held in each room at the ward buildings this afternoon. City School Superintendent E. L. Dohoney stated this morning.

Burglars Enter Haynes Residence (Special to The Record)

Odell, Tex., Nov. 9.—The residence of B. S. Haynes, three miles east of Odell, was entered by burglars last Saturday afternoon, during the family's absence, and \$20 in currency and several articles of clothing taken. Included in the loot secured by the thieves were a sweater, a pair of shoes, a safety razor, and several trinkets. No arrests have been made.

FEDERATION OF WOMEN'S CLUBS WILL HOLD ALL DAY MEETING

The Wilbarger County Federation of Women's clubs will hold an all day meeting at the Methodist church Wednesday, November 15, beginning at 10 a. m. All women's clubs in the county are requested to be present with their report whether they have been admitted to the federation or not.

Some of the district officers from Houston are expected to attend the meeting.

With official returns received from all but two boxes in the county and unofficial returns received from these boxes, the vote in the senatorial race will probably stand at 1,106 for Mayfield and 271 for Paddy. In the district clerk's race, Mrs. J. A. Walker has 800 votes, C. A. Richie, deceased 109, Frank Murchison 232, H. W. Norwood 148 and "Mrs. J. A. Baker," 1. It is probable that the lone voter intended to cast his ballot for Mrs. Walker.

These figures on the county clerk's race do not include the Oklahoma and Odell precincts, which have not sent in their ballots.

In East Vernon the vote for senator was as follows: Mayfield, 273, Paddy 73, Ferguson 3. In West Vernon: Mayfield 400, Paddy 95, Ferguson, 3, Culbertson 1. For district clerk, the vote in East Vernon was: Ferguson, 5, Murchison 61, Norwood 36, Richie 25, Mrs. Walker 199. In West Vernon it was: Murchison 135, Norwood 66, Mrs. Walker 202, Richie 34.

The election was one of the quietest ever held here, although the total vote polled was probably the heaviest ever. There was little enthusiasm at the B. & W. Drug Store, where only a small crowd gathered to receive election returns. More interest was displayed in the returns on the national election than on the state contest.

Several boxes in Wilbarger county did not give Paddy a single vote. The vote by boxes will be published in next Tuesday's issue of the Record, when it is expected that the two missing precincts will be in.

TWO COUPLES ARE MARRIED BY JUSTICE OF THE PEACE

Lonnie H. Perkins and Miss Theima C. Melton were united in marriage at noon Tuesday, the ceremony being performed by Justice of the Peace T. J. Griffiths, at the court house. Mr. Perkins is the son of A. S. Perkins, while the bride is the daughter of Mr. and Mrs. J. A. Melton, all of Vernon. The young couple will make their home here.

L. A. F. Scott and Mrs. Mollie Carpenter were married by Justice of the Peace Griffiths at 2 p. m. Tuesday. Mr. Scott is a resident of Childress, while his wife who is a sister of Clayton Lawlis of the Parker Donges Grocery Co. has been residing in Vernon. Mr. and Mrs. Scott will make their home in Childress.

FORMER VERNON PASTOR WILL BROADCAST PATRIOTIC ADDRESS

In a message to the Vernon Record, Rev. Gus Ramage, formerly pastor of the Central Christian church of this city, asks that his friends listen in next Sunday at 7:30 p. m. Mountain time, when he will broadcast a patriotic address from Trinidad, Colo.

"The theme will be especially for one of the coal mining camps, about 12 miles from here," Rev. Ramage stated. "Listen in and write to me if you hear the message. We will also have special music."

A. F. AND A. M. WILL HOLD BANQUET NIGHT OF NOV. 17

At a regular meeting of Vernon lodge No. 655, A. F. and A. M., Thursday night, it was decided to hold a banquet on Nov. 17 at 7 p. m. After the banquet, work on one of the degrees will take place.

E. M. Haney, W. G. Mosely and O. O. McCurdy are the members of the committee in charge of arrangements. Mr. Haney today stated that it is imperative for all members who wish to attend the banquet to see the committee before Thursday night, Nov. 16, to make arrangements for their plates.

GO TO CHURCH DAY WIDELY ADVERTISED

COMMITTEE DISTRIBUTES LITERATURE AT NEARLY ALL HOMES IN VERNON

About 90 workers met at the First Baptist church at 4 p. m. Tuesday and received "door knob hangers" and circulars advertising "Go to Church" day, which is next Sunday. They distributed the literature in 43 districts, covering nearly all the residence portions of Vernon, and were through with their task in less than an hour. J. A. Harrington, of the Kell Mill, acted as chairman of the committee. Each district had been mapped out and typewritten copies showing the areas to be worked, were distributed to the workers.

In addition to putting the literature to attend church in all the homes, placards have been placed in practically all business houses of Vernon, and on hundreds of automobiles. Advertisements are appearing in the picture shows and signs were today painted across the streets, inviting the public to come to Sunday school and church Sunday. It is hoped that all attendance records for this city will be broken.

In connection with the Go to Church movement, a Vernon pastor has called attention to a statement written by John G. Patton, the great missionary to the New Hebrides, in which he tells of the devotion of his father to the house of worship. The statement says:

"The town of Dunfries, Scotland, where we attended church, was four miles from our home, but during all these forty years my father was only three prevented from attending the worship of God—once by snow so deep that he was baffled and had to return, once by ice on the road so dangerous that he was forced to crawl back up the Duncan Brae on his hands and knees after having descended it so far with many falls; and once by the terrible outbreak of cholera at Dunfries, for all intercourse between the town and surrounding villages was publicly prohibited, and the farmers and villagers, suspecting a deputation to my mother on the Saturday evening urged her to restrain his devotions for once."

AT CHURCH NEXT SUNDAY

If I knew you and you knew me,
How little trouble there would be,
We pass each other on the street,
But just come out and let us meet,
At church next Sunday.

Each one intends to do what's fair,
And treat his neighbor on the square,
But he may not quite understand,
Why you don't take him by the hand
At church next Sunday.

This world is sure a busy place,
And we must hustle in the race,
For social hours some are not free
The six week days, but all should be
At church next Sunday.

We have an interest in our town,
The dear old place must not go down;
We want to push good things along,
And we can help some if we're strong
At church next Sunday.

Don't knock and kick and slam and slap
At everybody on the map,
But push and pull and boost and boom,
And use up all the standing room
At church next Sunday.

Achievement

From the day of America's entry into the World War until the day when the President was informed that the last soldier had been demobilized. It was then that the world realized what a tremendous and successful undertaking had been carried out. The results made possible (Armistice Day)

The Buick Company's objective is today on the floor of our show room. Every obstacle in the path of perfect organization, masterful equipment and finest workmanship was surmounted to give to America this finished product.

Power, construction, dependability, accessibility, performance, beauty and within the reach of everyone as to price, was our objective and it has been reached.

The very words "Armistice Day" conveys to your mind achievement. The very word "Buick" does not make you stop and think, you know immediately it also means achievement.

If you are interested in an automobile, we are at your service.

ARMISTICE

DAY

Four years of peace—four years of blessing—four years of reconstruction have passed since that eventful Armistice Day of 1918. America, particularly, is thankful that it can celebrate this November Day, firm in the belief that it will never raise an arm except in defense.

The Armistice Day of this year is an occasion for rejoicing—one of thanksgiving—that America will rapidly recover from the world war wounds and gradually regain its strength and stam-
community to commemorate this occasion fittingly.

A Day for Thanksgiving

Armistice Day is truly a day of thanksgiving. Four years of peace have almost healed the wounds of the world's greatest catastrophe.

AMERICA AND ARMISTICE

How does America feel toward
Armistice day and toward the
men who helped to make the day
possible four years ago? This
is a question which ex-soldiers
and ex-sailors are asking. To
many persons the day will be
merely a holiday—affording,
perhaps, a chance to quit work
and enjoy a few hours of recrea-
tion.

But to fathers and mothers
whose boys were in France on
the eleventh of November, 1918,
the day is set apart—different
from all others. And to the boys
who watched from the lines and
marveled at the strange silence
which followed the whine of the
shells on the morning of the
eleventh, Armistice day will
have a special meaning.

The thrill of that morning will
never be forgotten by those who
watched from the lines or made a
last thrust for ground held by
the Germans. The world dawned
new when the shelling ceased,
and in the unnatural quiet which
followed weeks and months of
the tumult of war, dreams of a
new earth in which war would
find no place were perhaps par-
donable.

Four years have gone since
then. Soldiers returned to be
greeted by an enthusiasm which
sometimes failed to be tempered
with understanding. Later, the
attitude of the public became in
too many cases one of indiffer-
ence.

Veterans of the world war are
now starting on the fifth year
of a campaign which should nev-
er have been necessary—the
campaign to secure adequate hos-
pital treatment for wounded
comrades. In later years, when
the sacrifices of the boys in olive
drab are more fully understood
and appreciated, the post war
record of our government with
respect to sick and wounded sol-
diers will be a cause of shame to
every patriotic citizen, as it is
now to those who are familiar
with the real facts.

The soldiers of America have
won the respect of the public
through their manly conduct in
the difficult days of reconstruc-
tion, as they won the admiration
of the world by their reckless
courage while the war was on.
They are playing a great part in
the industrial and moral arena
of the nation, and as time goes
on they will play still a greater
part.

Regardless of how any citizen
feels on the question of compen-
sation for able bodied soldiers,
the public should support to the

limit the hospitalization program
of the American Legion. It is a
program which is reasonable and
its demands are the demands of
common justice to those who of-
fered their lives and came back
maimed or wounded from the
war, or were victims of the ter-
rific demands on health and
energy made in the training
camps.

"GO TO CHURCH" DAY

It is to be hoped that far
reaching good will be accom-
plished by the "Go to Church"
movement launched by the
churches of the city in an effort
to get every man, woman and
child who is able to attend to be
at Sunday school and church next
Sunday morning. A new high at-
tendance mark should be set Sun-
day and a new vision of what the
churches can accomplish should
be received by religious leaders.

With more than two-thirds of
the high school students study-
ing the Bible in connection with
their regular work, a revival
meeting drawing large crowds
at one of the churches, and the
present co-operative movement
on foot, a great awakening in the
religious life of Vernon is in
sight. But the good which the
individual receives will depend
on whether he takes advantage
of the facilities for spiritual
growth which are offered.

The spirit of harmony and the
desire for mutual service which
have made the concerted move-
ment possible are in themselves
remarkable. When all denomi-
nations unite to "put over" a
proposition there must be a basic
appeal behind it.

GAS FROM THE AMARILLO
FIELD

Press reports from Amarillo
tell of a group of Denver capital-
ists preparing to expend millions
of dollars in piping gas from the
Amarillo field to Denver and other
Colorado cities. According to
the papers, the project is very
likely to materialize.

The Denver men's investiga-
tions have convinced them that
the greatest natural gas field in
America, if not in the world, is
situated near Amarillo, accord-
ing to one story concerning the
proposed venture.

The mere fact that such a pro-
ject is being seriously discussed
with reference to Denver is good
evidence that the Amarillo gas
field could be expected to supply
abundant fuel to this section of
the country for many years to
come.

There are a number of well
built cities and towns between
the eastern limit of the heavy
gas area and Vernon. There is
no reason why, if a franchise
could be secured in these places,
a gas line to serve them all could
not be built at a reasonable cost.
And such a line, together with
distribution systems in each
town and city it served, might
prove to be a very profitable
venture.

The section which a system of
this sort would supply is develop-
ing rapidly, and all of the centers
of population along the route can
reasonably be expected to show a
steady growth. Moreover, new
industrial and manufacturing
plants are being put in each year,
and these are heavy consumers of
gas, in places where it can be se-
cured at a reasonable figure.
Conversely, a good gas supply is
one of the impelling motives in
influencing new enterprises to
start up in business.

There is nothing mythical
about the Amarillo gas field.
Enough tests have been drilled
to prove that the gas is there, in
unlimited quantities. The need
for gas in the string of hamlets
and cities running from here
northwest, is equally real. The
profit to be derived from such an
enterprise could be determined
by a preliminary survey which

C'EST LA GUERRE

BY PAUL C. YATES
(Reprinted from the Home Sector)

Old Ephraim Cerless lit his pipe and leaned back in his chair.
Said he, "My John that went to France, you can't beat him nowhere.
One night John went out on patrol—alone, ye understand,—
And he met six husky Germans in the wilds of Nomansland.
Both him and them was armed but yet they dassen't fire a shot.
For cannons of both armies was entrained upon the spot.
But John allowed he'd mix it with 'em like he used to do
When Martin's Valley raised a row at Oak Grove's barbecue.
There ain't been no such battle since the badger fought the coon
Through ten changes of the weather and three changes of the moon
But John laid out all six of them. His colonel heard of it
And danced a jig and hummed a tune and nearly throwed a fit.
Said he, 'I never heard the like; my mind is in accord
That every one concerned in this shall have a fit reward.
I'll give him the lad a corporal's stripes; the top that sent him out,
I'll have him wearing shoulder bars by night beyond a doubt.
The captain that commanded him shall git a Croix De Guerre,
And on the strength of such a deed I'll rise to brigadier.'
Well, now, it worked out jest that way, but John was soon reduced.
He had a button off his coat—he said it busted loose."

should not cost a great deal of
money.

Here is a situation which could
soon be resolved into action. The
only thing needed is a concerted
effort on the part of the business
interests of the section to be
served. The Record believes that
the matter is of sufficient im-
portance to justify the Vernon
Chamber of Commerce in taking
the initiative and arranging a
conference of Chambers of Com-
merce from all the places likely
to be interested in such a move,
to the end that the plan be thor-
oughly discussed and plans made
for its realization.

An offer of a liberal franchise,
with proper safeguards, made by
the city of Vernon alone would
not be likely to arouse any great
amount of interest on the part of
capitalists who are engaged in
the utility business. But the
same offer, made by 10 or 15
towns and cities, would imme-
diately attract the attention of
big business interests by its mag-
nitude alone. In all probability
it would not only do this but
would cause spirited competition
among men who are well able to
finance and put through such an
undertaking.

Foster's Bulletin.

Washington, Nov. 9.—North American precipitation for the year beginning Oct. 1, 1922, is expected to be less than the ten-year average. Of course some sections will get more, some less; the important thing for the producer to know is what the prospects are for his immediate vicinity so he may know what kind of a crop to plant and sow. A shortage of rain means a shortage of crops as a general average and that means good prices for products of 1923. The absence of severe storms for about twenty days of October brought out general complaints about dry weather. From near Nov. 10 to 30 sufficient severe storms are indicated to bring a good general average of moisture that will be favorable to

winter grain. My information is that the beginning of the crop season indicates bad crops in Australia, New Zealand and the islands near them; only fair crops in South Africa; good crops in Argentina. Shortage of wheat and rye crops in Europe is greater than heretofore reported. World conditions continue to indicate a world shortage of grain for 1923. Some countries will produce above normal crops but more below. Local forecasts follow:

Colder than Usual

Section 1: North of 47, between 90 and Rockies' crest; lowest temperatures Nov. 12 and 20, highest 16 and 24; Average colder than usual; coldest near 20; most severe storms and most rain during week centering on Nov. 14.

Sec. 2: North of 46, east of 90; highest temperatures 11 and 18, lowest 14 and 22; average about normal; most severe storms and most rain during week centering on 16.

Sec. 3: Between 39 and 46 and between 90 and Rockies' crest; lowest temperatures 11 and 16, highest 14 and 18; average much warmer than usual; most severe storms and most rain during week centering on 14.

Sec. 4: East of 90, between latitudes 39 and 47; highest temperatures 11 and 15, lowest 13 and 17; average much warmer than usual; most severe storms and most precipitation during week centering on 16.

Sec. 5: South of 39, between 90 and Rockies' crest; lowest temperatures 10 and 20, highest 14 and 24; average cooler than usual; most severe storms and most rain during week centering on 17.

Sec. 6: South of 39, east of 90; lowest temperatures 12 and 22, highest 17 and 26; average much warmer than usual; severe storms and most rain during week centering on 17.

Sec. 7: North of 43 1-2, west of the Rockies' crest; lowest temperatures 10 and 18; highest 14 and 22; average cooler than usual; severe storms and most precipitation during the week centering on 14.

Sec. 8: South of 43 1-2 to Mexican line, west of Rockies' crest; lowest temperatures on 10 and 18; highest 14 and 22; average much warmer than usual; most severe storms and most rain during week centering on 15.

I am always pleased to receive suggestions from readers of this paper and always reply. I am all the time trying to improve my work, and the best information I get as to what my readers most desire comes from them. Everything about my weather work is new; I am not following the method of any other person and progress is necessarily slow where there are no experiences nor examples as guides. As a rule, most of our knowledge comes from others; that is true in my case except as to the foundations of my weather work. The most important thing to those interested in producing farm products is future cropland, and I am very much interested in the wishes and opinions of readers of this paper on this subject.

NEW TREATMENT PREVENTS MOLD IN TUBS OF BUTTER

The growth of mold on butter in tubs is a cause of great annoyance to dealers and a common source of loss to creameries. Preventive treatments designed to do away with this trouble have been devised by various people, and these have been carefully studied by the United States Department of Agriculture. The treatment that has

been found most successful consists in soaking the tubs in cold water, steaming them for 30 seconds with live steam, paraffining the inner surface, and then rubbing over the paraffin with salt. In addition, the liners for the tubs are soaked for 30 minutes in a saturated solution of boiling brine. Under the supervision of the department several millions pounds of butter have been packed in tubs and lin-

ers treated in this manner and no cases of mold have been reported.

Reducing the losses from these rots is a complex problem, requiring much more investigation. At present the department can go little farther than to say that primarily it involves a careful consideration of environment, soil fertility, and the nature of the particular strain of corn.

CONFERENCE MAKES NO LOCAL CHANGES

PRESIDING ELDER, CIRCUIT PASTORS AND MINISTERS RE-ASSIGNED HERE

The annual session of the Northwest Texas conference, which closed a four day session at Quanah, last Sunday, was one of the most enthusiastic in the history of the association, according to Methodist ministers and laymen of this county who attended. A number of ministers were assigned to new work but Willbarger county pastors were nearly all retained in their places. Robert E. Dickenson was returned to the Vernon pastorate and Rev. W. P. Garvin was retained as presiding elder of the Vernon district. Rev. F. T. Johnson, pastor of the Vernon circuit, was reappointed to the place.

Several changes of interest to Methodists of this section were made by the conference. Rev. J. W. Storey, presiding elder of the Amarillo district for the last four years, was appointed to the Quanah pastorate. Rev. W. M. Murrell, pastor at Crowell, was assigned to Chillicothe. Rev. L. N. Lipscomb of Chillicothe was sent to Hereford. Rev. A. J. Moore of Memphis, was appointed presiding elder of the Stamford district. Rev. G. W. Shearer, formerly presiding elder of the Lubbock district, was chosen presiding elder of the Amarillo district. Dr. E. E. Robinson, pastor of Saint Paul's church at Abilene, was selected as presiding elder of the Lubbock district.

Dr. Dickenson was appointed to serve on three important boards, which were chosen for four years' work. He was selected as vice president of the Sunday school board, which has general supervision of the Sunday schools, of the entire conference, comprising eight districts. He was chosen as secretary of the board on hospitalization, which has an important work to perform, namely the stimulation of interest in the building of denominational hospitals in the Northwest Conference. Dr. Dickenson also was appointed a member of the social service board.

Dr. Dickenson preached at the Christian church at Quanah Sunday morning before a large audience. Bishop James E. Dickey, who presided at the conference, made an educational address which was said to be especially fine. Sunday morning he preached a sermon which proved a wonderful spiritual uplift to the auditors and left most of them shouting, laughing or weeping.

Among the visitors to the conference were Dr. T. J. Ellis, general secretary of the board of church extension, Dr. Stonewall Anderson, secretary of the board of education, Dr. W. B. Hicks, representing the centenary movement, and Dr. Weeks, representing the board of missions. The conference will meet next year at Plainview.

POSTAL AUTHORITY APPEALS FOR COOPERATION OF PUBLIC

(By Dr. Frank Crane)
The other day the postmaster at Chicago had placards put on the motor vehicles operating in the Postal Service reading as follows:

STOP THIS WASTE!
25,000,000 pieces of mail annually are delayed or not delivered at all because they are incorrectly addressed or improperly packed.

The postal authorities call our attention to the fact that there are 25,000,000 pieces of mail that they must handle three to seven times often than they would have to handle them if they had been properly prepared. And even after they have exhausted every means of identification and salvage they succeed in delivering only slightly more than one-fifth of that amount.

And this does not include vast quantities of circulars and newspapers which are not properly addressed and which are destroyed because they can not be delivered.

In Chicago there is one building that is used as a storage place for mail of obvious value and for mail of first class which can not be delivered. Twice a year the contents are auctioned off, because there is no way of finding the owners. In this building are bins of shoes, quantities of clothing, dress goods, automobile parts, and tires sporting goods, suit cases—everything from a bird cage to a mouse trap. These are lost to both the one who sent them and the one who should receive them because somebody was careless in tying a knot, or used flimsy wrapping paper, or put on a defective address.

Nearly 300 employees are engaged in correcting the common, preventable errors of the people. The only reason the post office can stand this drain of carelessness upon its resources is that the people pay the bill.

There ought to be a general campaign of education with the object of impressing upon the people the importance of properly preparing and addressing anything they put into the mail box.

Another waste, caused by sheer thoughtlessness arises from the custom of many business houses holding their mail until the close of the business day when they rush it to the postoffice in a perfect deluge. All day, cancelling machines, distribution cases, and other facilities for handling mail lie practically idle and just after 5 p. m. they are taxed beyond their capacities. If people would simply change their mailing habits to the extent of depositing their mail even two hours earlier than they do at present, it would revolutionize the Postal Service.

This article is written in the hope that many people will adopt the idea of paying better attention to their mail matter.

After all, the postoffice is the great public servant, and it behooves every citizen of the country to make that servant as efficient as possible.

Much of the criticism leveled at the post office is due to the carelessness of the general public.

First Assistant Postmaster Gen.

This is the Stove Polish
YOU
Should Use
It's different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers. All we ask is a trial. Use it on your cookstove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is entitled to a refund of your money. Insist on Black Silk Stove Polish. Made in liquid or paste—non quality. Black Silk Stove Polish Works, Sterling, Illinois. Use Black Silk Air-Drying Iron Cream on grates, radiators, stove-pipes—Prevents rusting. Use Black Silk Metal Polish for silver, nickel or brass. It has no equal for use on automobile.

"LINKS OF DESTINY" THEME AT REVIVAL MEET TONIGHT

A chart sermon entitled "Links of Destiny" will be delivered at the Central Christian church tonight by Rev. Lewis P. Kopp, who is conducting an evangelistic meeting. The sermon will show the relation of every day religious and secular effort to the ultimate goal of the individual. Services will be held on Saturday night, also, with "The Presumptuous Sinner" as the subject.

A message received from R. A. Haley, cartoonist and song leader, who is at present aiding in a very successful revival at Abilene, has been received, stating that he will be here early next week. Members of the church are counting heavily on his services in increasing the already splendid interest which is being manifested in the revival.

Sunday is expected to be another record breaker in the Sunday school and two sermons have been prepared which promise to be helpful and inspiring. At 11 a. m. the subject is "The Lord's Table" and at 7 p. m. the theme will be "The Will of Christ." A chart will be used to illustrate the messages.

TURKEYS

This year we expect to see a good market for Thanksgiving turkeys. In order to get them to the Eastern consumers it will be necessary to start them earlier than usual, as it takes practically twice as long to get a freight car to the Eastern markets now as it did under normal conditions; the strike is not settled by any means.

You should pick out your large birds, gobblers weighing 12 pounds and over; hens weighing 8 pounds and over, that are in good condition and bring them in for the Thanksgiving market not later than the 15th of November. However, it appears that with the large crop in view that the best prices will be paid between the 1st and the 10th of November, with probably lower prices starting about the 11th. WE ADVISE EARLY

MOVEMENT OF YOUR LARGE TURKEYS. Hold the small ones for the Christmas market. Our dressing stations open October 28th, at all points. Here we wish to call your attention to the advantage of selling your turkeys to our Company. Mr. Foster, our president, has been in the poultry industry in Southern Oklahoma and Northern Texas continuously for seven years. Our houses are open the year round to receive your produce. We actually operate during some of the summer months at a considerable cash loss, in other words if we would close our houses on the 1st day of June and open them on the 1st day of November we would have several thousand dollars more money than we would have to continue them during these dull months. But we realize the farmers must have a market the year round and we believe it is his duty to patronize the industry that continues buying in his community during the entire twelve months of the year. There are always a large number of small fly by night dealers who are ready to open up on the first day of November and stay during the rush season. Some of these are legitimate and they are fair dealers, but there are some who believe in "getting their's" while the getting is good. Better be safe than sorry; patronize the house you know will treat you right. We buy turkeys, ducks, geese, guineas, hens, fryers, roosters, butter, hides, furs and pecans.

LIONS' CLUB HEARS PATRIOTIC TALKS

ARMISTICE IN ARGONNE FOREST DESCRIBED BY W. T. PONDER

Today's meeting of the Lion's Club was specially arranged to commemorate Armistice day and American flags were on the walls of the dining room and on the table. Following the luncheon, W. T. Ponder made a brief address, detailing incidents connected with Armistice day four years ago, when he was on the Argonne front. "Armistice day means more to me than the fourth of July," he declared.

"In 1776 we were fighting for our own independence, but in 1918 we were fighting for the liberty of the world."

Mayor Harry Mason declared that the American soldiers who stemmed the tide of the German advance and sent the enemy back toward his own lines represented the finest type of manhood seen in any age or country. He paid a glowing tribute to the soldiers and to the cause they represented and the flag under which they fought.

L. G. Hawkins made a plea for attendance at church next Sunday. Our duty to God is greater than our duty to home, friends or country," he asserted. "The Go-to-Church movement should have the support of all Lions and all good citizens. Its purposes are commendable and I hope the campaign will be a great success."

J. G. Rossmann, a representative of the Central Texas Power Company, and Paul C. Yates, of the Vernon Record, were guests of the club. Each spoke briefly. Marvin C. Culbertson presided at the meeting.

Preceding the luncheon "My Country 'Tis of Thee" was sung and the Lord's prayer repeated in unison.

MISS STANDIFER TELLS OF SCENES IN PASSION PLAY

Miss Don Standifer of Vernon spoke Thursday afternoon to the Junior English classes at the high school detailing incidents connected with the Passion Play, which she witnessed last summer at Oberammergau. Miss Standifer gave a brief history of the Passion Play and told of watching the players perform during a downpour of rain, with the stage open to the sky. The most dramatic moment came when Judas was on the stage alone, filled with remorse over his betrayal of the Savior, she stated. The play opened with Christ's triumphal entry into Jerusalem.

Andrew Lang who has performed the part of the Savior for many years remained on the Cross 20 minutes Miss Standifer stated and the physical strain of this scene was very great on him.

Miss Standifer also told of other places she visited in Europe.

FUTURE OF RED CROSS WORK IN COUNTY TO BE DECIDED

Representatives from luncheon clubs, the American Legion, women's organizations and the churches are scheduled to meet with a committee from the Red Cross next Monday at 4 p. m. at the public library building to determine whether the work of the Red Cross in Wilbarger county shall be carried on or the charter given up and the work dropped.

The action of the Red Cross committee will be guided by the expressions heard at the meeting, and for this reason members of the committee are anxious to secure a representative attendance.

EDMONSON ASSUMES DUTIES OF OFFICE

(Continued from page 1)

nals, many of them "wanted" men. The chief deputy arrested Cecil Jensen, 18 year old youth who was wanted for the murder of Jimmy McNeal, a Fort Worth service car driver. Officers of three states were looking for Jensen and several detectives were endeavoring to trace his movements after the McNeal killing. He was taken in custody in Breckenridge by Mr. Edmonson 15 minutes after he landed in town. In another hour he had signed a confession admitting his part in the slaying and was on his way to Mineral Wells to meet Fort Worth officers.

A Change in the Oil Fields

During the time that Mr. Edmonson was at Breckenridge a great transition took place in the oil fields of Stephen county. Where "hijacking" had been a nightly occurrence and pipe thefts were too common to excite notice, a respect for the law was established. Many hard characters were sent to the penitentiary, while others drifted out to find new stamping grounds. Mr. Edmonson was a leader in the work of putting down crime and putting criminals behind bars.

About Christmas, 1921, he resigned his place at Breckenridge and came here to enter the race for sheriff. He was elected by a large majority over his two opponents, in the first primary. He has been assisting Jim Key as a city officer for some time.

EXPERIMENTS SHED NEW LIGHT ON CAUSES OF ROTS OF CORN

The severity of the root, stalk and ear rots of corn, diseases found to be more or less widely distributed throughout the corn belt, can be greatly reduced by properly balancing the fertilizing elements in the soil and by planting selected strains of corn. These conclusions are the result of investigations carried on by the United States Department of Agriculture, in cooperation with a number of state experiment stations in the middle west.

In the past it was not thought that the corn plant was particularly sensi-

tive to the balance of the various elements in the soil, but now the damage caused by these rots is believed to depend largely upon these conditions and upon climatic factors. Also the nature of the plant itself—what plant breeders call the genetic composition—has much to do with its susceptibility or resistance to these rots. In the experimental fields self-fertilized strains of corn of many different varieties are showing peculiarities formerly regarded as symptoms of root, stalk and ear rots, and many strains are being isolated which, even though self-fertilized for many generations, show resistance to the organisms associated with the rots.

BIT OF OLD JAPAN IS SET IN PICTURE

A colorful portion of old Japan forms the background for an important series of scenes in William de Mille's most recent Paramount picture, "Nice People," which comes to the Vernon Theatre next Monday and Tuesday.

The scene is an ultra-modern cafe done in Japanese style. Beautiful Geisha girls serve as check room attendants and cigarette girls. Japanese youths in the costumes of their ancestors fill the attendant positions. Everything except the food, the guests and the music, is Japanese. The first is American, the second are cosmopolitan, and the third is Hawaiian.

The setting is one of the most elaborate and lavish ever constructed for the screen. It consists of a spacious entrance hall leading into a large Japanese garden illuminated by Oriental lights and lanterns, dotted with tables and bosting of numerous interesting pieces of Oriental sculpture, vegetation, pergolas and pagodas.

The full structure filled nearly half of the new glass roofed stage, recently completed at the Lasky studio. This stage is the largest of its kind in the motion picture industry. Approximately two hundred persons were employed in the filming of this series of scenes.

Wallace Reid, Robe Daniels, Conrad Nagel and Julia Faye are featured and Eve Southern, Bertram Johns, William Boyd, Claire McDowell and others are prominent in the cast. Clara Beranger adapted the story from Rachael Crothers' successful stage play of the same name.

No subscriptions will be accepted for over six years from any contestant.

Armistice Day

There will be millions of DODGE boosters parading throughout the United States tomorrow.

Every one of them is a DODGE booster. Why? Because, he was shown. It was proven beyond any doubt that the DODGE stood the hard knocks of war. Today, to realize the improvements in his wonderful car, one must come in and look it over.

We extend to the people a cordial invitation to come in and be convinced.

AUBREY FOSTER TO REFEREE SCHOOL BASKET BALL GAMES

Aubrey Foster, of Dixon Dry Goods store has consented to referee basket ball games between schools entered in the interscholastic league. County Superintendent L. A. Hollar stated today. Mr. Foster is one of the outstanding basket ball experts of the southwest. He has had nine years of experience in college athletics, and was for five years captain of the Deatur Baptist College basket ball team, which won the state championship in competition with all Texas colleges and universities three years during the time he headed the organization.

Mr. Foster made the all star state basket ball team in 1914 and again in 1915. He served as arbiter of county scholastic basket ball teams two years before entering the army, and devotees of the game will feel gratified to know that he has consented to serve again this year.

Mr. Foster will be unable to referee games on Saturdays, on account of the fact that the Dixon company requires his services on week ends. The county superintendent has requested teachers to arrange their schedules for school days, if they desire Mr. Foster's services as referee.

SEVEN MORE DAYS!

The Candidates in the Vernon Record Big Automobile Campaign Have Reached the Turn

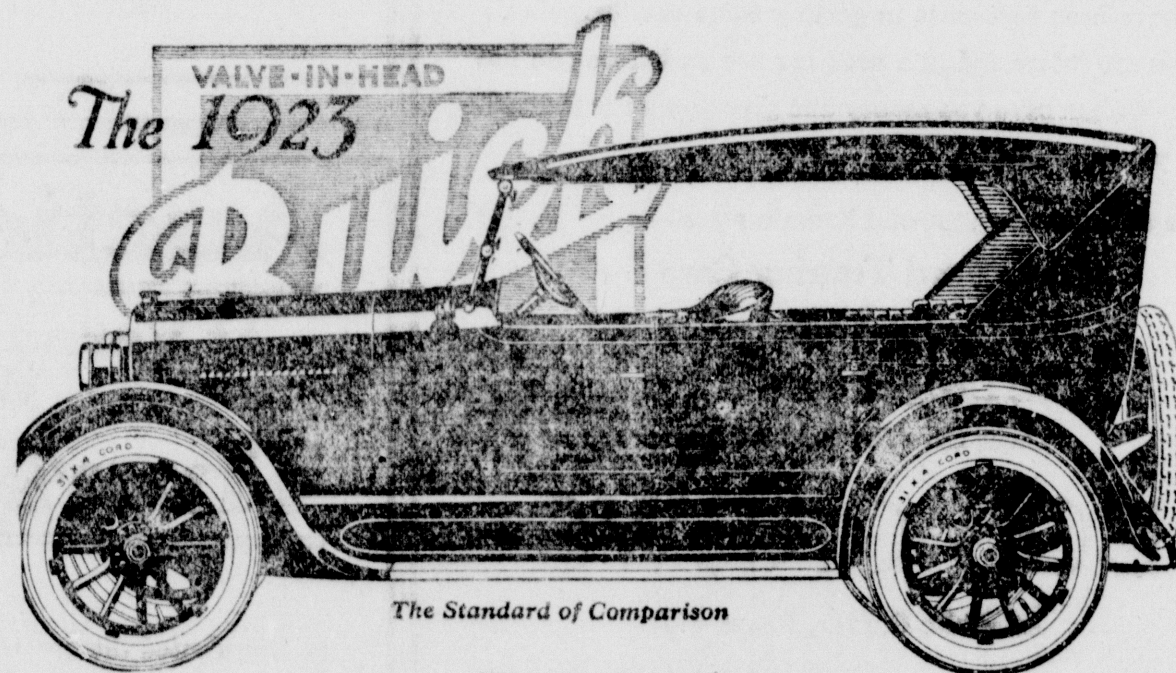

maneuvered themselves into position for the final go, and from now until 10:00 o'clock next Saturday night, November 18, the end of the big votes, will be battling for supremacy under whip and spur.

So evenly have honors been divided up to the present time that it depends almost entirely upon the amount of subscriptions turned in before the close of the first period as to who the ultimate winners will be, and each has entered the final lap with the determination of being the victor or know the reason why.

Seven Days More of "First Period" Votes, Seven More Days in Which to Secure the Greatest Number of Votes on Subscriptions in the Vernon Record's \$5000 prize Competition. Seven More in Which to Win or Lose. for That is Exactly What it Means.

**ONLY
SEVEN
MORE
DAYS**

**GET
BUSY
Now And
WIN**

Only 7 more days—count 'em—Just one week in which to secure "First Period" Votes in The Vernon Record's big \$5,000 campaign; one week more in which to redeem all promises—one week in which to garner enough votes and subscriptions to "cinch" the prize you desire. Your Last Chance for Big Votes. Never again during this campaign will it be possible to secure so many votes on subscriptions as between now and 10 o'clock Saturday night, November 18. To hold back subscriptions, or to rely on "promise" to subscribe at a latter date, simply means that you will have to take less votes on such subscriptions. We are putting it up to you squarely. If you entertain any idea of winning the big prize you cannot possibly afford to let this "period" pass without having done your best. Hard work NOW will count more than all the regrets in the world after the race is over. About 660,000 votes are given with \$24.00 worth of subscriptions for the next seven days.

In The Vernon Record Distribution

If you really KNEW you could own one of the handsome big prizes which The Vernon Record will award next month, you would pull off your coat, roll up your sleeves and hustle day and night, wouldn't you? But when you have an equal chance with the others to win one of them, you hesitate to get busy. Why is it? "Self-Reliance" is all you need. It is what is keeping you from being a motor car owner this minute. If you had just an ounce of it, some terrible misfortune only could keep you out of this election. This is an American campaign, filled with the things typical Americans like—such as hustle, chance, opportunity, speed, luxury—everything combined in a manner to make it exhilarating and worth while. Get in WIN!

SUNDAY CLOSING DAY ON BAPTIST PLEDGES

LEADERS MAKE APPEAL FOR FUNDS TO AID IN WORK AT HOME AND ABROAD

Next Sunday is the last day on which pledges paid to the Baptist seventy-five million campaign can be entered on the 1922 record, and a special appeal is being made by Baptist leaders over the county, to those who are in arrears on their pledges. The following articles dealing with the campaign is printed in this connection at the request of the local Baptist pastor, Dr. L. J. Mims:

The undersigned would send most cordial Christian Greetings to their fellow Baptists, in every nook and corner of Texas expressing the earnest hope that the present "Catch-Up Campaign" to provide one million and five hundred thousand dollars, is being everywhere carried forward in the spirit of wholehearted joyfulness, and with the high purpose to win.

Serious Issues Involved

The interests and issues involved in this campaign are too serious and tremendous for any Texas Baptist to be willing, on any plea, to stop short of his or her best help in the campaign. All of our co-operative work, missionary, educational and benevolent, both at home and abroad, is bound up on this campaign. All of this co-operative work, let us ever remind ourselves, is wholly dependent upon our voluntary co-operation. The state levies taxes for the carrying forward of its enterprises, Christ's cause is carried forward by the voluntary gifts of His friends. Every one of us is therefore put upon his or her sacred honor, both in the sight of the people and in God's sight, to give our utmost loyalty and support to that cause in which are wrapped the highest hopes and the supreme interests of mankind, both for today and for the long tomorrow. If Texas Baptists should dilly-dally in such an hour as this and with such a campaign as they are now waging, they would mortgage the future and put shackles on their children's children, for generations to come.

God is setting His seal in a marvelous way to the work that is now being done by our Baptist people. Their great program in recent years has been so startling and daring, and so wonderful in co-operation, as to challenge the attention of mankind around the globe. In the wake of such vastly enlarged program, new missionaries have gone forth by the hundreds, and new converts have confessed Christ and followed Him in beautiful baptism by the hundreds of thousands. Our Christian schools have all been strengthened and enlarged, and trained Christian students are being sent forth in ever enlarging numbers to strengthen the churches and to bless the world. Our orphanage and hospitals have been greatly fortified and new ones built, so that God's grace is being gloriously exemplified by the ministry of healing. Our churches and all their agencies have been so vitalized and blessed by our enlarged program as to call forth devout thanksgivings from

all our hearts. For Texas Baptists to be half-hearted in such an hour as this, or to allow themselves to be diverted from the work of caring wisely and worthily for their present "Catch-Up Campaign" would be far worse than a tragedy—it would be treasonable to the incomparable trust committed to us by our Lord Jesus Christ and treasonable to the highest welfare of souls for whom He died.

Influences at Work

There are well known influences at work to divert Texas Baptists from their great campaign. For one thing there is going on a statewide political campaign, with an election soon to follow. We would not minimize the duty of Christians to be true to the high obligations upon them in the realm of civil government, but we would from our deepest hearts adjure them not only to "Render unto Caesar the things which are Caesar's" but also to remember to "Render unto God the things which are God's." God's people are to have the sense of perspective, the right viewpoint—they are to seek first the Kingdom of God and His righteousness. It is righteousness which always exalts a nation, while sin is ever a reproach and a waste to the people. If Christ's cause should be ignored, then nothing would be stable and safe in the social order. For a people to seek to build a civilization without regard to the will of God would be to build it on the shifting sands. Christ's cause is the one only hope and help for humanity, in all realms. That cause should be given the first place, every moment, in all our lives.

We would speak here briefly but frankly concerning the well known and noisily aggressive and spectacular efforts that are being put forth in Texas, not only to hinder the present campaign, but also to cheapen and hinder the advancement of all the co-operative work fostered by our Texas and Southern Baptist conventions. Texas Baptists will meet this opposition just as they have met such opposition before; that is to say, they will completely answer and expose the inaccurate and reckless stream of statements sent near and far, concerning our Baptist work and workers, and they will at the same time redouble their efforts to provide worthy gifts to carry for the work. We send the frank word to our brethren and sisters everywhere that while the opposition above referred to is both deplorable and execrable, yet the outcome of such opposition to Christ's cause will be what it has always been before—pitiful confusion and shame to those who have trifled with Christ's work, and greatly added triumphs to the work itself. We will now remember Paul's great word: "But I would ye should understand, brethren, that the things which happened unto me have fallen out rather unto the furtherance of the Gospel." We will also remember his faithful admonition to "Stand fast in one spirit, with one mind, striving together for the faith of the Gospel; and in nothing terrified by your adversaries; which is to them an evident token of perdition, but to you of salvation, and that of God."

A Great Victory

Our hearts are warmed to the depths when we remember how quickly Texas

Baptists have again and again accomplished a great victory in a brief time. They are called now to achieve a mighty victory in a few fast-passing days. They are abundantly able to accomplish such victory, for God has marvelously blessed them both temporally and spiritually. Let us with one heart and "with both hands earnestly" now dedicate ourselves to the winning of that victory. Let us do twice what our churches did a year ago, in order to grapple victoriously with the acute needs and constantly enlarging opportunities of all our Baptist enterprises.

The whole situation makes the most challenging appeal to pastors, deacons and other officials in our churches. Let such leaders recall that deeply significant sentence in the Book of Judges: "For that leaders took the lead in Israel, for that the people offered themselves willingly." Let us faithfully make the expression: "The leaders took the lead." That is the high business of leaders to lead the people in the right things, the leaders themselves seeing to it that they set the right examples for the people. Following such leadership comes the other significant expression: "The people offered themselves willingly." God grant that every leader in every church in Texas may now lead the people in this campaign according to the will of God. And may the people in the churches, all the estates of all the people likewise make just that response to this campaign which shall be according to the will of God! Through every day and hour leading up to the Waco convention, let us all and each, by prayer, by personal testimony, by our best gifts, seek to fortify the campaign according to the will of God. And in the Waco convention a few days hence, let us gather, the Lord willing, to take most faithful counsel with one another and with God how to win still more glorious victories in His name in the great days which are just ahead.

the Vernon Record's report issued on Oct. 17, which placed the total for the county up to that day as 17,217 bales. Foard county, according to the government report, ginned 5,329 bales up to the middle of October, as compared with 4,515 bales on the same date last year. Wichita county ginning receipts amounted to 3,867 bales, a gain over the total of 2,173 on a similar date in 1921. Hardeman county showed 11,552, a big increase over last year's report, which gave only 7,501 bales on Oct. 15. Baylor county is credited with 7,130 bales in com-

COUNTY FEDERATION PLANS TREE PLANTING CAMPAIGN

An extensive tree planting campaign in Wilbarger county will be launched this fall by the County Federation of Women's clubs, according to announcement made this week. The slogan of the campaign will be "Every Woman Plant a Tree," and the federation will

ask every woman in the county to plant at least one tree, and as many more as possible.

Nowhere in the Southwest do climate and soil favor the growth of trees more than in Wilbarger county. It was pointed out this week by federation members. It is hoped that the tree planting movement launched by the Home Science club, with such excellent re-

sults that Vernon is now known as the most beautiful town on the Denver railroad, will be extended over the county through the efforts of the Federation.
